

PAPI survey part 2

Response ID:207 Data

1. Identification page

Please enter the two-letter country code corresponding to your Office or Organization.

Don't know your country code? [Please click here.](#)

HU

Please enter your email address so we can contact you if we have questions about your response.

2. Questions page

1. Please explain any other conditions or requirements for access to patent information besides those covered in Part 1 questions 3 (access mechanism) and 4 (who may access), such as limits on the number of queries, number of results, or data limits.

There is a system limit of 500 results.

2.

Are fees required for access to particular types of information?

NO

If yes, please indicate for which information and explain the access procedure (e.g. how to create an account, what forms of payment are accepted, etc.).

3. If your office uses multiple languages, are the online interfaces for different languages synchronized with the same capabilities and the same data, or do some interfaces have different capabilities or data than others?

Please indicate the reference language(s).

English

Comments: The general search interface called "IP search" has the same data set in English and in Hungarian, however the published documents are available only in Hungarian. On the other hand, the so called "e-register" exists only in a Hungarian version.

4. Please indicate any differences in the data available in other languages (for example, in the frequency of updates, coverage, search tools, etc.).

	Differences for Language
Published applications	Published documents only available in Hungarian.
Granted patents	Published documents only available in Hungarian.
Legal Status information	There is no difference.
Corrections	Published documents are available only in Hungarian.
Priority information	There is no difference.
Patent Term Extensions or Supplementary Protection Certificates	There is no difference.
Patent family information	The search pages do not show patent family information. (There is no difference)
File inspection	Presently not available in any language.
Court decisions	There is no difference.
Reassignments	There is no difference.
Licensing information	There is no difference.
Official Gazette	The document itself is solely available in Hungarian, however the links containing the titles of the chapters of the Gazette, are also available in English.

Comments:

5. Are documents available for download in a searchable text format?

Examples of searchable text formats include plain text documents, HTML, XML, and certain PDFs that are created with readable text. If a PDF was created from a scanned image with OCR (optical character recognition) applied, then select "PARTIAL" as text may not always be converted correctly.

This question refers only to the content of the document which can be represented as text. Do not consider images or figures in your answer. If a document has both images and text, answer "Yes" if all the text elements are searchable.

	YES	NO	PARTIAL (some text elements not searchable)
Published applications			X
Granted patents			X
Amendments, corrections, or other documents with updates			X
File history	X		

Comments:

6.

Are updated versions of patent documents available online when changes are made after publication (e.g. "as granted" rather than "as filed")?

NO

If yes, please explain how updated documents are presented in search results (e.g. with updated kind codes according to WIPO ST.50).

Comments: The HIPO does not update the previous versions of published patent documents, but shows all the versions simultaneously.

7. Which parts of patent documents are updated online after publication? Mark all that apply.

Comments:

8. Is the event history (list of relevant legal status information) for a given document available in online systems?

	YES	NO	PARTIAL
Pre-grant events		X	
Post-grant events		X	

Comments: Regarding legal status information our site solely shows the current legal status data.

9. What are your current plans, if any, for using WIPO Standard ST.27 for patent legal status information? Check all that apply.

We are not planning to implement ST.27 at this time, because-
We don't have the resources currently available to implement ST.27

Comments:

10. Does your Office / Organization provide an authority file of published patent documents?

NO, we do not provide an authority file

Comments:

11. If you do not provide an authority file to WIPO according to the recommendations of ST.37, can you indicate the reasons below? Check all that apply.

Other (Specify in comments)

Comments: The HIPO has definite plans to generate an authority file in the near future, however could not set an exact deadline at the moment.

12. Are the following features available in the online systems provided by your Office?

See glossary above for definitions of search types.

	Patent Applications	Patent Grants	Legal Status data
Basic search	X	X	X
Advanced search or Field combination search	X	X	X
Semantic search or similarity search			
Machine translations			

Comments: Legal status data could be used to further narrow the result lists.

13. Are the following fields available for search in the online systems in question? Check all that apply.

	Patent Applications	Patent Grants	Searchable in English or Latin character set?
Patent publication number	X	X	X
Patent application number	X	X	X
Priority date	X	X	X
Priority number	X	X	X
Applicant name	X	X	X
Inventor name	X	X	X
Owner name	X	X	X
Normalized names (applicant, owner, etc)			
PCT application number	X	X	X
PCT publication number	X	X	X
Title	X	X	X
Abstract	X	X	X
Claims	X	X	X
Description	X	X	X
Country (of applicant, owner, etc)			

Comments: The HIPO uses the same application and publication numbers.

14. For machine translations, please indicate which languages are translated.

From (original document languages)

To (translated output languages)

15. Which patent information is translated?

Abstract

Comments: The English version of the abstract is a human translation.

16. Does your system provide guidance on what types of number formats are accepted when searching by application or publication numbers?

Our system provides guidance on the search page

Comments: The guidance could be found by clicking to a hyperlinked questionmark on the search page.

17. What types of number formats are accepted when searching by application or publication numbers? Please check all that apply.

Numbers with separators between different parts of the number, such as slash (/) hyphen (-) or space ()

Number issued by another Office, such as a PCT application number that entered the national phase

Other number formats (Please specify in Comments)

Comments: The application/publication number format used by the HIPO is the following: P2101234 which contains the Type of Industrial Property Right: "P"/"U" etc. according to the type of the IP right, the Year Designation: the last two digits of the application year, and the Serial Number: five digits in a sequential numbering system These numbers could be truncated

during the search.

18. Are WIPO ST.3 two-letter codes or WIPO ST.16 document kind codes used as part of the search term when searching by application or publication number?

	required	optional	not accepted
ST.3 Office codes are		X	
ST.16 document codes are			X

Comments: Office codes could be searched in respect of the numbers which comprise such codes, however even in these cases the application/publication numbers could be truncated that they do not have to specify any office code.

19. What kind of interface do users have to access your online systems for the available types of patent documents? For example, for published patent applications, granted patents, patent term extensions, fee payments.

All information can be accessed through a single web page or portal

Comments:

20. Do your online systems use the same web pages or portals for different types of industrial property rights provided by your Office? For example, patents for inventions, plant patents, design patents, inventors' certificates, utility certificates, utility models, patents of addition and others. Answer yes here even if there are multiple web pages or portals for different types of documents (application, legal status history, assignments, etc), as long as each type of IP right is available on the same web page or portal.

Note- this question is about different types of IP rights. Question 17 is about different types of patent documents.

YES

Comments:

21. If there are separate websites or portals for these other types of industrial property provided by your Office, please list them.

22. Do your online systems contain information on documents issued under international or regional IP protection systems, which have (potential) effect in your jurisdiction?

NO

Comments:

23. If so, what types of documents are available, e.g. PCT documents or translations?

24. Is international or regional data searchable in the same online systems as national documentation?

Yes, international / regional data is available and searchable

Comments: This kind of data could only be searched in respect of PCT applications after entering the Hungarian national phase, and are published in Hungary; and in respect of validated European patents.

25. What functionality would you like to see in the systems provided by other Offices?

	For full descriptions	For legal status
Possibility to translate content into other languages	X	X
Search by bibliographic data fields	X	X
Full text search	X	X
Possibility to download documents in various formats	X	X
Alerting to data updates		
Date of receipt of applications by your Office		
Other (Specify in comments)		

Comments:

26. What is your desired update frequency for data from other Offices?

	For full descriptions	For legal status
Real time publication of all changes		
Daily updates		X
Weekly updates		
Other (Specify in comments)		

Comments:

27. Should other Offices' systems support machine-to-machine communication (such as web services) for exchanging data with your Office?

	YES	NO	NO PREFERENCE
For full applications			X
For bibliographic data			X
For legal status information			X

Comments:

28. Should Offices' systems provide search capabilities for both their national data sets and data published by other Offices (with an interface in the national language)?

	YES	NO	NO PREFERENCE
For full applications			X
For bibliographic data			X
For legal status information			X

Comments:

29. User guide

Is there a user guide for searching (such as explanation of fields or

examples) available in the system?

YES

URL where the guide is available-

Comments: The guidance could be found in parts by clicking to the hyperlinked questionmarks on the search pages.

30. Is there a clear indication of which information in the official publication is issued by your Office / Organization and which information is from other sources (e.g. a disclaimer on externally provided information)?

There is not such a disclaimer in our search pages.

31. Please briefly describe your future plans with respect to your Office's online systems, their content and functionality. For example, if you have plans to expand their capabilities, merge existing systems, retire old systems, or a general timeline for such work, please include that information here.

The HIPO has an ongoing Back Office project, and plans to start a Front Office project in the next years.

32. In which of the following areas are WIPO recommendations the most needed and/or most effective? Check all that apply.

	For full applications	For legal status
Scope of published information		
Frequency of updates		
Availability of information and/or interfaces in other languages		
Information retrieval functionality

2. Questions

Please enter the two-letter country code corresponding to your Office or Organization.

Don't know your country code? [Please click here.](#)

HU

Please enter your email address so we can contact you if we have questions about your response.

Is your Office / Organization considering to discontinue the official gazettes, and instead make related publication data available only via public online services?

NO, we do not have any plans to discontinue the official gazettes

Comments: The HIPO solely publish its official Gazette digitally (on its homepage). The publication of a Gazette is required by the Hungarian Patent Act.
