EXPERIENCE IN INTELLECTUAL PROPERTY/TELECOMMUNICATIONS/INFORMATION TECHNOLOGY

Over the years, has acted for a number of brand owners and devised enforcement strategies for them in Greater China and elsewhere in Asia. Handled scores of company name hijacking cases in Hong Kong, devising a successful strategy to enforce court orders against company name hijackers.

Has written over 200 articles on issues concerning information technology, e-commerce, telecommunications and intellectual property law for various publications, and also sits on the editorial board of "*Computer Law and Security Report*". Has contributed chapters to a number of books including "*Intellectual Property in Asia*" book published by Kluwer Law in 2003. Selected number of such publications listed below.

Talks regularly at international conferences on domain names and information technology, e-commerce, telecommunications and intellectual property issues.

Telecommunications/Information Technology:

Taught the LLM in Information Technology and Telecommunications Laws at the University of Hong Kong and has designed the syllabuses for three modules of this course. Has lectured on competition provisions in the Telecommunications Ordinance and on the merger and acquisition regulation for the telecoms industry in Hong Kong. Was an online tutor for the LLM in Information Technology and Telecommunications Laws offered by Strathclyde University for a number of years.

EXPERIENCE WITH RESPECT TO DOMAIN NAMES

Has extensive experience in domain name portfolio management and domain name recovery and has advised a number of ccTLD registries and registrars on their rules, policies and dispute resolution procedures. Has recovered over 200 domain names for clients including .com; .cc; .cn; hk; in; jp; .mobi;.info; and .net domain names and has rendered more than 100 domain name decisions for both WIPO and the Asian Domain Name Dispute Resolution Centre (ADNDRC).
