INTRODUCTION

- 1. The convergence of telecommunications, information technology and broad casting which is transforming our world and creating a Global Information Society (GIS) is having a tremendous impact on Caribbean countries. Convergence is seen as opening a window of opportunity to enable Caribbean countries to more fully participate in the global economy through the Internet and Electronic Commerce Small to medium size enterprises (SMEs) with high quality products and service sthat could not afford to penetrate the global market now have an opportunity to effectively compete globally at minimal costs.
- 2. IntheInformationSociety"content"iskingandintellectualpropertyrightsisaprimary mechanismforcontentprotection.  - (i) passageofmodernIPlawsandregulations; and
 - (ii) augmentation of the administration of IP by modernizing the national IP Office (IPO).

POLICY

5. Caribbean policy makers view Electronic Commerce and IP ascritical to achieving sustainable development, generating employment and raising social welfare. Electronic Commerce is considered to be a tool to attractincre as edforeign directin vestment in the Region and as a catalyst for the development of indigenous SMEs particularly in the music, agriculture and craft sectors.

6. EachGovernmentisdevelopingpoliciestopromoteElectronicCommerceandis mindfulthattheonlywaythatElectronicCommerceanenabletheregiontobeanet exporterofservicesandcontentisifthepeopleoftheCaribbeanhaveaffordablea ccesstothe necessarytechnology.

7. The digital divide within Caribbean territories is a major concerngiven the relatively low teledensities (phones per 100 persons) and limited numbers of computer users in the

page 3

Region. In Jamaica for example, the teledens it y is 18 and the number of computer users has been estimated at 2% of the Jamaican population.

- 8. The Governments view the strategic liberalization of their telecommunications markets as a way to encourage investment in the information and communication sector.
- 9. Specialprogramshavebeenestablishedtoprovidecomputerstoschoolsandlibraries.
- 10. In Jamaica post offices have been targeted ase -commerce access points to enable farmers and merchants to sell their goods and services on linear minimal costs.

THELEGALFRAMEWORK

- 12. IPprotectioninadigitalenvironmentisconsideredofparamountimportancein maintainingasafeandpredictableenvironmentinwhichtoachievegrowthand development ofelectroniccommerce. Accordingly, laws are being amended to allow the necessary protection. Some countries in the region are already signatories to the WIPOD igital Treaties and most have expressed their intention to accede to the treaties.
- 13. Throughoutthe Caribbean, Governments have evinced an intention to passlegislation which promote selectronic commerce, addresses privacy is sue sandre cognises the validity of data as evidence.

THEROLEOFTHENATIONALIPO

14. Respectfortherightsofth eIPcreatorsonlineandthesupportofmechanismstoensure that these rights are protected must be come part of the modus operandio finational IPOs in this new century. IPOs have been instructed to be active players in the thrashing out of the issues related to IP and Electronic Commerce and ultimately to be part of the solutions that emerge.

REGIONALCOOPERATION

- 15. Ineachcountrycommitteeshavebeenestablishedwithpublicsectorandprivatesector involvementtoexamineelectroniccommerce. Howeverin relationtotheoverlapping of IP and Electronic Commerce issues, the governments have taken a regional approach.
- 16. When WIPO organised a Caribbean regional consultation in 1999 in Jamaica on electronic commerce and intellectual property as part of a series of consultations which also took place in the African, Asian, and Latin American regions in order to:

WIPO/ECTK/SOF/01/1.5 page 4

- generategreaterawarenessofthewaysinwhichelectroniccommerceisaffecting intellectualproperty;and
- assistinformulatingatimelyandswiftr esponsetothoseissues.

the consultation in the Caribbean was so successful that Caribbean Minister's responsible for IP agreed to create a Regional Committee on Electronic Commerce and Intellectual Property.

- 17. When the Governments formed the E -commerce and Intellectual property committeetheGovernmentsagreedtodothefollowing:
 - (i) developandimplementpolicieswhichcreateaNationalInformation InfrastructurewhichintegrateswiththeGlobalInformationInfrastructure andensuresthatawidecrosssect ionofthepopulationhavegreater accesstocomputersandtheInternetandthatcomputersandinternet accessareavailableinpublicinstitutionssuchaspostofficesand schools.
 - (ii) developandimplementmoderntelecommunicationspolicieswhich liberalizethetelecommunicationssector, ensure universaltelephone access, developamoderntelecommunications infrastructure and enable full participation by the Caribbean in the WIPO's Global Information Network.
 - (iii) developaregional strategy for the maximization of the contribution of Intellectual Property to Caribbean economies in this Information Age.
 - (iv) ensureappropriate representation at international for awhere critical issues relating to Intellectual Property and Electronic Commerce are to be determined.
 - (v) mandateregionalIntellectualPropertyOfficestoactasavanguardin embracingtechnology,maximizingonthebenefitsoftheInternetandin collaborationwithWIPOdisseminatinginformationtothepubliconboth thevalueofIntellectualPropertytonatio naldevelopmentandthemeans ofprotectingIntellectualProperty.
- 18. - 19. The Governments have with the assistance of WIPO developed publiced ucation campaigns on Internetuse which respects the Intellectual Property of Rights Holders. In addition regional seminars on the Internet and Electronic Comme rechave been held which have targeted businesses, educational institutions, Intellectual Property Rights Holders and legal practitioners.

WIPO/ECTK/SOF/01/1.5 page 5

- 20. Today, all the Governments are working assiduously at developing policies and strategies for dealing with IP issues that have a risen from the phenomenal growth of the Internet and are supportive of WIPO digital agenda.
- 21. AtthelastmeetingofMinisterswithresponsibilityforIPintheCaribbean, organizedthroughWIPOinSt.LuciainOctober2000,itwasdecidedthat therewasthe needforaSecretariattofocusonIPissuesthatarebeingcreatedoraffectedbythedigital revolutionforthebenefitofIPOs,PolicymakersandIPStakeholders.
- 22. The Regional Committee through the Secretaria thas been mandated to prepar e position papers and conduct consultations which focus on the following for the Region:
 - TechnologicalProtection(encryption&watermarking)ofIP;
 - ElectronicCopyrightManagementSystems;
 - Domain Name Dispute Resolution including practical online disp ute resolutionprocedures;
 - Legislative enactments at the national level which creates and facilitates a safeenvironment fore -commerce transactions;
 - ContentRegulation;
 - Ratification and implementation of the WIPOD igital treaties;
 - Patentability of cer tain subject matter (inventions related to financial services, electronic sales advertising and business methods);
 - Accesstotheglobalinfrastructure(internetaccess, webhosting, a Caribbean IPInternetportal);
 - Education;
 - E-GovernmentDigitalDeli veryofIPServices;
 - Securityandprivacyoftransactions.
- 23. WeintheCaribbeanrecognizethattheInternetandElectronicCommercewhichhave arisenoutoftheconvergenceoftelecommunications,informationatechnologyand broadcastingaresignificantly impactingIPandraisingnewpolicyandregulatoryissues whichmustbeexpeditiouslyaddressedifwearetoachievesustainableeconomicandsocial developmentinthe21 stcentury.
