

## **ADMINISTRATIVE PANEL DECISION**

**QatarEnergy v. Gross MOE**  
**Case No. D2023-3513**

### **1. The Parties**

The Complainant is QatarEnergy, Qatar, represented by Hogan Lovells (Paris) LLP, France.

The Respondent is Gross MOE, United States of America.

### **2. The Domain Name and Registrar**

The disputed domain name <qatarenergyoil.com> is registered with Gname.com Pte. Ltd. (the “Registrar”).

### **3. Procedural History**

The Complaint was filed with the WIPO Arbitration and Mediation Center (the “Center”) on August 18, 2023. On August 21, 2023, the Center transmitted by email to the Registrar a request for registrar verification in connection with the disputed domain name. On August 22, 2023, the Registrar transmitted by email to the Center its verification response disclosing registrant and contact information for the disputed domain name which differed from the named Respondent (REDACTED FOR PRIVACY) and contact information in the Complaint. The Center sent an email communication to the Complainant on August 23, 2023, providing the registrant and contact information disclosed by the Registrar, and inviting the Complainant to submit an amendment to the Complaint. The Complainant filed an amended Complaint on August 28, 2023.

The Center verified that the Complaint together with the amended Complaint satisfied the formal requirements of the Uniform Domain Name Dispute Resolution Policy (the “Policy” or “UDRP”), the Rules for Uniform Domain Name Dispute Resolution Policy (the “Rules”), and the WIPO Supplemental Rules for Uniform Domain Name Dispute Resolution Policy (the “Supplemental Rules”).

In accordance with the Rules, paragraphs 2 and 4, the Center formally notified the Respondent of the Complaint, and the proceedings commenced on September 5, 2023. In accordance with the Rules, paragraph 5, the due date for Response was September 25, 2023. The Respondent did not submit any response. Accordingly, the Center notified the Respondent’s default on September 28, 2023.

The Center appointed Andrea Mondini as the sole panelist in this matter on October 2, 2023. The Panel finds that it was properly constituted. The Panel has submitted the Statement of Acceptance and

Declaration of Impartiality and Independence, as required by the Center to ensure compliance with the Rules, paragraph 7.

#### **4. Factual Background**

The Complainant, QatarEnergy, is a state owned corporation that operates oil and gas activities in Qatar.

The Complainant owns numerous trademark registrations for QATARENERGY in stylized forms in many jurisdictions throughout the world, including:

- Austrian Trademark Registration No. 316677, registered on December 17, 2021;
- United Kingdom Trademark Registration No. UK00003708704, registered on January 7, 2022;
- European Union Trade Mark No. 018573695, registered on April 19, 2022.

The Complainant also holds several domain names, including the domain names <qatarenergy.qa> and <qatarenergy.com.qa>.

The disputed domain name was registered on June 20, 2023.

The record shows that the disputed domain name was previously resolving to a phishing website containing “login” and “password” fields allowing an account to be created and displaying the Complainant’s logo.

The Respondent’s website was reported as fraudulent on forums relating to scam activities.

#### **5. Parties’ Contentions**

##### **A. Complainant**

The Complainant contends as follows:

The disputed domain name is confusingly similar to the QATARENERGY trademark in which the Complainant has rights, because it incorporates this trademark in its entirety, and the addition of the word “oil” is not sufficient to avoid confusing similarity. It is also well established that the generic Top-Level Domain (“gTLD”), such as “.com,” in a disputed domain name is disregarded.

The Respondent has no rights or legitimate interests in respect of the disputed domain name. The QATARENERGY trademark is associated with the Complainant, since the QATARENERGY trademark has been extensively used to identify the Complainant and its services. The Respondent has not been authorized by the Complainant to use this trademark, is not commonly known by the disputed domain name, and there is no evidence of the Respondent’s use, or demonstrable preparation to use, the disputed domain name in connection with a *bona fide* offering of goods and services.

The disputed domain name was registered in bad faith because it is obvious that the Respondent was aware of both the Complainant and its well-known QATARENERGY trademark at the time it registered the disputed domain name.

The disputed domain name was used in bad faith because it resolves to a phishing website containing “login” and “password” fields allowing an account to be created and displaying the Complainant’s logo. Upon login, it led to a malicious platform, which invited users to recharge their account using the cryptocurrency Tether (“USDT”). The platform displayed various photographs including a photograph of the Complainant’s

headquarters. Once the account was recharged, it supposedly produced an income for the users. The Respondent's website was reported as fraudulent on forums relating to scam activities.

## **B. Respondent**

The Respondent did not reply to the Complainant's contentions.

## **6. Discussion and Findings**

According to paragraph 4(a) of the Policy, in order to succeed, a complainant must establish each of the following elements:

- (i) the disputed domain name is identical or confusingly similar to the trademark or service mark in which the complainant has rights;
- (ii) the respondent has no rights or legitimate interests in respect of the disputed domain name; and
- (iii) the disputed domain name has been registered and is being used in bad faith.

### **A. Identical or Confusingly Similar**

The Panel is satisfied that the Complainant has trademark rights by virtue of the registrations it owns for its QATARENERGY trademark.

The Panel notes that the disputed domain name incorporates the QATARENERGY trademark in its entirety. The addition of the term "oil" does not prevent a finding of confusing similarity under the Policy, paragraph 4(a)(i). See WIPO Overview of WIPO Panel Views on Selected UDRP Questions, Third Edition ("[WIPO Overview 3.0](#)"), section 1.8.

The addition of the gTLD ".com" in the disputed domain name is a standard registration requirement and as such is disregarded under the confusing similarity test under the Policy, paragraph 4(a)(i). See [WIPO Overview 3.0](#), section 1.11.1.

For these reasons, the Panel concludes that the disputed domain name is confusingly similar to the Complainant's QATARENERGY trademarks.

The first element of paragraph 4(a) of the Policy has been met.

### **B. Rights or Legitimate Interests**

The Complainant states that the Respondent is not commonly known by the disputed domain name, that it has not authorized the Respondent to use the QATARENERGY trademark, and that before notice of the dispute, there is no evidence of the Respondent's use, or demonstrable preparation to use, the disputed domain name in good faith.

The Panel does not see any contrary evidence from the record. In particular, the Panel finds that the Respondent is not commonly known by the disputed domain name and its use of the disputed domain name for fraudulent activities cannot be considered a *bona fide* or legitimate use. See [WIPO Overview 3.0](#), section 2.1.3.

In the view of the Panel, the Complainant has succeeded in raising a *prima facie* case that the Respondent lacks rights or legitimate interests in the disputed domain name. For its part, the Respondent did not provide a Response and thus failed to provide any explanations as to any rights or legitimate interests.

Furthermore, the nature of the disputed domain name, comprising the Complainant's trademark and the term "oil" carries a risk of implied affiliation. See [WIPO Overview 3.0](#), section 2.5.1.

Therefore, the Panel finds that the Respondent does not have any rights or legitimate interests in the disputed domain name.

The second element of paragraph 4(a) of the Policy has been met.

### **C. Registered and Used in Bad Faith**

The Complainant has shown to the satisfaction of the Panel that its QATARENERGY trademarks is well-known.

In the view of the Panel, noting that the Complainant's trademark predates the registration of the disputed domain name and the nature of the disputed domain name, it is inconceivable that the Respondent could have registered the disputed domain name without knowledge of the Complainant's well-known trademark. In the circumstances of this case, this is evidence of registration in bad faith.

The disputed domain name resolved to a phishing website impersonating the Complainant, which was used for fraudulent activities. The Panel thus finds that by using the disputed domain name, the Respondent has intentionally attempted to attract, for commercial gain, Internet users to its websites by creating a likelihood of confusion as to the source, sponsorship or affiliation of its website in the sense of paragraph 4(b) (iv) of the Policy. The use of the disputed domain name for fraudulent activities manifestly constitutes evidence of bad faith. See [WIPO Overview 3.0](#), section 3.14.

The Panel thus finds that the disputed domain name was registered and is being used in bad faith.

The third element of paragraph 4(a) of the Policy has been met.

## **7. Decision**

For the foregoing reasons, in accordance with paragraphs 4(i) of the Policy and 15 of the Rules, the Panel orders that the disputed domain name, <qatarenergyoil.com>, be transferred to the Complainant.
