

Hague Agreement Concerning the International Registration of Industrial Designs

WIPO International Designs Web Statistics

1. The WIPO web site of the Hague System for the International Registration of Industrial Designs contains a compilation of annual and monthly statistics. Until the end of 2011, these statistics were made available in PDF format and presented in the static form of an annual report. As of today, annual and monthly statistics relating to the Hague system are available in a new dynamic form through an interactive web application.
2. This new application enables users to dynamically prepare their own custom tables and/or graphs with additional search criteria, together with the feature of Excel format download. It also permits the dynamic consultation of statistics that are updated on a monthly basis for the benefit of the Hague Union members, the users of the Hague system and the general public. Finally, the application allows its users to consult statistics from 2000 to the present day.
3. The Hague statistics are available at the following address:
<http://www.wipo.int/hague/en/statistics/>.
