

Hague Agreement Concerning the International Registration of Industrial Designs

New version of the international registration search interface – Hague Express

1. Users are hereby informed of the launch of a new version of the international registration search interface (Hague Express). This improved tool is available on the web site of the World Intellectual Property Organization (WIPO) at: http://www.wipo.int/hague/en/design_search/.
2. The search interface features several improvements, including a more user-friendly layout, new search criteria, a detailed search results list and a function to save, retrieve and export searches.
3. Additionally, bibliographic data and reproductions for a given international registration are made available through two kinds of displays:
 - (a) “Current status”, that presents an up-to-date summary of the international registration;
 - (b) “History”, that lists and shows in detail all the transactions published in the *International Designs Bulletin* concerning the international registration.
4. It is recalled that Hague Express is updated weekly and includes bibliographic data and reproductions of international registrations governed exclusively or partly by the 1999 and/or by the 1960 Act(s) of the Hague Agreement Concerning the International Registration of Industrial Designs and published in the *International Designs Bulletin* since issue No. 1/1999.
