No. 08/1996

PCT STATISTICS – 1 January to 30 June 1996

During the first six months of 1996, the International Bureau of WIPO received 23,522 international applications filed with PCT receiving Offices worldwide, representing an increase of 22.1% over the same period in 1995.

These international applications had the effect of 635,285 national applications and of 49,994 regional applications, which in turn had the effect of 634,988 applications for patent protection in the Contracting States of the regional patent systems; that is, a total effect of 1,270,273 applications.

The number of demands for international preliminary examination filed under Chapter II during the same period amounted to 16,338, representing an increase of 19.4% over the same period last year.

PRACTICAL ADVICE

Special requirements of designated/elected Offices

I am the applicant for a PCT application in respect of which I have decided to enter the national phase in several countries. An agent, who I have appointed to represent me before one of the national Offices concerned, has told me that I am required to furnish a copy of the international preliminary examination report. I did not think that this was necessary. What requirements am I expected to comply with for entry into the national phase? How I can find out which special requirements

need to be complied with before any particular Office?

For entry into the national phase, the applicant must, within the time limit applicable under PCT Article 22 or 39(1)(a), pay the national fee, and furnish, where required, a translation of the international application to the designated/elected Office (DO/EO). A copy of the international application

need only be furnished if it has not already been communicated to the DO/EO (usually done promptly after its international publication, in accordance with PCT Article 20). No DO/EO may refuse entry into the national phase if the above-mentioned requirements have been complied with.

Apart from those requirements, once the processing of the international application has started in a DO/EO, some special requirements may also need to be complied with before that Office (see PCT Article 27 and PCT Rule 51^{bis}). The special requirements applicable for each DO/EO are listed in the Summary sheet of the relevant National Chapter of Vol. II of the *PCT Applicant's Guide*. If those special requirements have not been complied with within the time limit applicable under PCT Article 22 or 39(1)(a), the applicant has the opportunity to comply with them, either within a fixed time limit or within a time limit fixed in an invitation issued by the DO/EO to the applicant. The Summary sheets give details of the applicable time limits.

The information contained on the Summary sheets is furnished to the International Bureau by the Offices concerned. Any changes which are notified to the International Bureau are promptly published in the *PCT Gazette* and the *PCT Newsletter* and are included in the six-monthly updates to the *PCT Applicant's Guide*.

The applicant may not be required to comply with any special requirement at the time of entering the national phase unless the imposition of that requirement is permitted under PCT Article 27 and Rule 51^{bis}. For example, the applicant may not be required to furnish a copy of the international preliminary examination report (or anything else in the file of the international preliminary examination) or of the priority document (provided that the applicant complied with the requirements of PCT Rule 17.1 during the international phase). The applicant may, however, be required to furnish the DO/EO with a translation of the priority document (see PCT Rule 17.2(a) and *PCT Newsletter* No. 06/1995).

Of course, local agents may ask applicants to provide copies of the international application, the international search report and the international preliminary examination report for the agents' own files, but those

documents will have been or will be communicated by the International Bureau direct to the DO/EOs.

Patent protection for pharmaceutical or agricultural chemical products in certain States which do not yet provide patent protection for such products – the TRIPS "black box" or "mailbox" provision

Q: I understand that it is possible to file a patent application now with a view to obtaining patent protection in the future for pharmaceutical and agricultural chemical products in certain States which are members of the World Trade Organization (WTO) which are to enact legislation to that effect but which do not yet provide patent protection for such products. Is it possible to obtain such future protection on the basis of an international application? If so, do I have to request such protection explicitly in an international application in which such a State is designated?

A: The Agreement on Trade-Related Aspects of Intellectual Property Rights (the "TRIPS" Agreement) includes (in TRIPS Article 70.8) a so-called "black box" or "mailbox" provision. Under that provision, States which did not provide patent protection for pharmaceutical and agricultural chemical products as of the date of entry into force of the Agreement Establishing the WTO (1 January 1995) are required:

- (i) to provide, from that date, a means by which applications for patents for such inventions can be filed;*
- (ii) to apply to those applications, from the date of application of the TRIPS Agreement by the State concerned, the criteria for patentability as laid down in the TRIPS Agreement as if those criteria were applied on the date of filing in such State or, where priority is available and claimed, the priority date of the application; and*
- (iii) to provide patent protection, in accordance with the TRIPS Agreement, as from the grant of the patent and for the remainder of the patent term for those applications which meet the criteria for protection laid down in the TRIPS Agreement.*

Any such applications will be held for examination until the expiration of the time limit applicable under the transitional provisions of the TRIPS Agreement (TRIPS Article 65). The product may be marketed in the mean-

time, without loss of the right to a patent (TRIPS Article 70.9).

Since an international application has the effect of a regular national application in any designated State as of the international filing date, "black box" protection in respect of claims for an invention in the field of pharmaceutical or agricultural chemical products may be obtained in a State affected by the relevant provisions of the TRIPS Agreement, on the basis of an international application containing such claims and designating that State, provided that the necessary steps are taken to enter the national phase in the said State.

However, at the present time, there is no need to include a statement in the PCT request form when filing the international application to the effect that "black box" protection is sought in one or more designated States; the TRIPS Agreement does not require applicants to explicitly claim the benefits of TRIPS Article 70.8. On the contrary, such a statement made in an international application would be subject to *ex officio* deletion from the request in accordance with the requirements of PCT Rule 4.17.

PCT CONTRACTING STATES AND TWO-LETTER CODES

For the convenience of readers, the list of PCT Contracting States, and notes thereto, printed on the last page of this issue of the *PCT Newsletter*, have been translated into French, German and Spanish and are included as tear-out sheets. Translations into other languages may be included at a later date as they become available.

TYPES OF PROTECTION AVAILABLE IN PCT CONTRACTING STATES

Several States have become bound by the PCT, and certain types of protection other than patents have become available in certain States, since the publication in *PCT Newsletter* No. 07/1995 of a table setting out, for each Contracting State, the type of protection which can be obtained where that State is designated in an international application. An update of that table appears on pages 6 and 7.

PCT PUBLICATIONS

The publications mentioned below can be ordered from the Publications Sales and

Distribution Unit at WIPO at the address indicated on the cover page. The fax number is: (41 - 2 2) 740 18 12.

The PCT and Regulations in German and Russian

The International Bureau has published new editions of the German and Russian texts of the PCT and Regulations, as in force from 1 January 1996. The new editions contain the latest version of the PCT Schedule of Fees, which entered into force on 1 January 1996 (see *PCT Newsletter* No. 02/1996). The new Russian edition also contains a number of changes to the PCT Regulations made since the publication of the previous edition.

The WIPO publication number should be indicated in orders for the PCT and Regulations: No. 274 (G) for the German version and No. 274 (R) for the Russian version. The price of the publication is 18 Swiss francs by surface mail, 24 Swiss francs by airmail in Europe and 31 Swiss francs by airmail outside Europe. For residents of the United States of America, the price is 15 US dollars by surface mail and 26 US dollars by airmail.

General Information on Contracting States, National and Regional Offices and International Authorities

Consolidated general information relating to PCT Contracting States, national and regional Offices, and International Authorities under the PCT was published in a special issue of the *PCT Gazette* on 18 July 1996 (No. 32/1996). It replaces the previous special issue of the *PCT Gazette* containing consolidated general information, published on 4 January 1996 (No. 01/1996).

The price per special issue is 18 Swiss francs (or by airmail: 24 Swiss francs in Europe and 31 Swiss francs outside Europe) or, for residents of the United States of America, 15 US dollars (or by airmail: 26 US dollars).

CHANGE IN CRITERIA FOR DETERMINING ENTITLEMENT TO EPO FEE REDUCTIONS

As from 1 July 1996, pursuant to a decision of the Administrative Council of the European Patent Organisation (EPO) dated 14 June 1996, the 75% reduction in the

international search fee and the international preliminary examination fee charged by the EPO is available if the international application is filed by a national of a State whose per capita national income is below US\$3,000 (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997). This decision of the EPO's Administrative Council replaces its decision of 9 December 1983 under which the fee reduction was available to nationals of "developing countries." The fee reduction will be granted only at the applicant's request.

However, for nationals of "countries in transition" ("reform States") the decision of the EPO's Administrative Council of 15 De-

cember 1994 still applies for a period of three years as from 1 April 1995 (see *PCT Newsletter* No. 04/1995).

Information on this change was included, in the form of a footnote to Annex D (EP) and Annex E (EP), in the July update of the *PCT Applicant's Guide*, Vol. I/B.

PCT FEE TABLES

The following Tables show the amounts (including currencies – see the key to currency abbreviations following Table II) of the main PCT fees which are payable to the receiving Offices (ROs) and the International Preliminary Examining Authorities (IPEAs) during the international phase under Chapter I (Tables I(a) and I(b)) and under Chapter II (Table II). Fees which are payable only in particular circumstances are not shown; nor are details of certain reductions and refunds which may be available; such information can be found in the *PCT Applicant's Guide*, Vol. I/B, Annexes C, D and E. Note that all amounts are subject to change due to variations in the fees themselves or fluctuations in exchange rates. A 75% reduction in the basic fee, the supplement per sheet over 30, the designation and confirmation fees and the handling fee, as well as the transmittal fee payable to the International Bureau as receiving Office, is available to applicants from certain States; see footnote 2 for details. Footnotes to all Tables follow Table II.

1 Extension of European patent possible.

2 May not be designated for a regional patent (the national route has been closed).

3 Not bound by Chapter II.

4 Will become bound by Chapter II as from 7 September 1996.

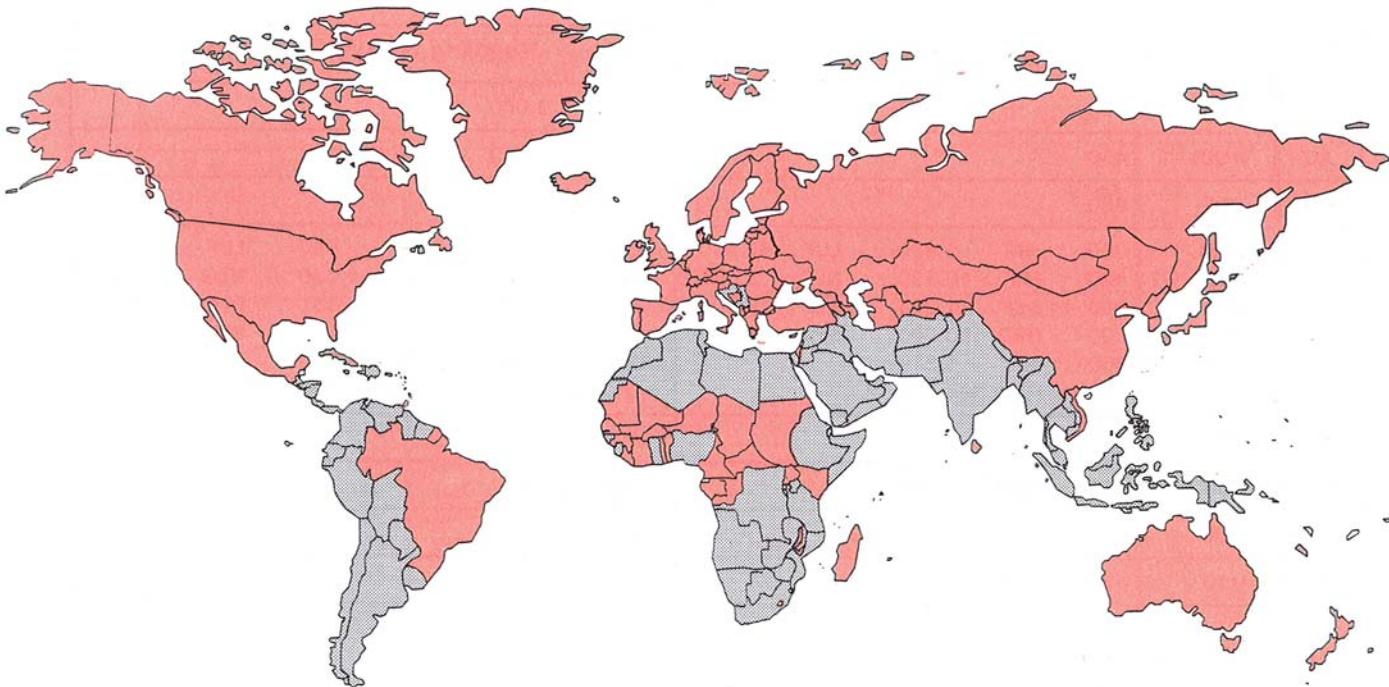

Where a State can be designated for a regional patent, the two-letter code for the regional patent concerned is indicated in parentheses (AP = ARIPO patent, EA = Eurasian patent, EP = European patent, OA = OAPI patent).

Important:

This list includes all States that have adhered to the PCT by the date shown in the heading. Any States indicated in ***bold italics*** have adhered to the PCT but were not yet bound by the PCT on the date of issue of the latest version of the request form. If the applicant wishes to designate any States which are bound by the PCT on the date on which the international application is filed but which are not listed in the request form, he must add them in Box No. V of the request form and mark the corresponding check-box. Where a State has adhered to but is not yet bound by the PCT, the date on which it will become bound is shown in parentheses; it cannot be designated in international applications filed before that date.

Applicants should always use the latest versions of the request and demand forms. The latest versions of the request form (PCT/RO/101) and the demand form (PCT/IPEA/401) are dated July 1996. The forms are reproduced in Annexes X and Y, respectively, of the *PCT Applicant's Guide*, Vol. I/B. The request form can also be obtained from receiving Offices or the International Bureau. The demand form can also be obtained from receiving Offices, International Preliminary Examining Authorities or the International Bureau.

Les dernières versions du formulaire de requête (PCT/RO/101) et du formulaire de demande d'examen préliminaire international (PCT/IPEA/401) sont datées de juillet 1996. Ces formulaires sont reproduits respectivement aux annexes X et V du *Guide du déposant du PCT*, vol. I/B. Le formulaire de requête peut également être obtenu auprès des offices récepteurs ou du Bureau international et le formulaire de demande d'examen préliminaire international auprès des offices récepteurs, des administrations chargées de l'examen préliminaire international ou du Bureau international.

Das Antragsformular kann von den Anmeldeämtern oder dem Internationalen Büro bezogen werden. Das Formular für den Antrag auf internationale vorläufige Prüfung ist bei den Anmeldeämtern, den mit der internationalen vorläufigen Prüfung beauftragten Behörden oder dem Internationalen Büro erhältlich.
