## PRACTICAL ADVICE

### *Different applicants for different designated States*

**Q: I am the agent for an international application in which several persons are to be named as applicants.**

*(1) Can I name different applicants for different designated States. If so, how should this be indicated in the request?*

*(2) One of the applicants is to be applicant for GB for a national patent. Can another person be applicant for GB for a European patent?*

*(3) Where more than one type of protection (such as patent and utility model) is available for a particular Contracting State, may different persons be indicated as applicants for that State for the purposes of obtaining different types of protection?*

**A:** (1) Yes, it is possible for different persons to be indicated as applicants for different designated States (see PCT Rule 4.5(d)). First of all, all applicants should be named, as usual, in Boxes Nos. II and III of the request form. Then, for any applicant not falling into the categories of applicant for the purposes of "all designated States," "all designated States except the United States of America," or "the United States of America only," the checkbox "the States indicated in the Supplemental Box" should be marked. Then, the following text should be added to the Supplemental Box on the supplemental sheet of the request form: "Continuation of Boxes Nos. II and/or III," followed by the name of each

applicant, the name(s) of the designated State or States for which that person is applicant, together with, for each designated State, where applicable, an indication whether that person is applicant in respect of the State designated for the purposes of obtaining a national patent **or** a regional patent, or both a national **and** a regional patent. Note that, where different persons are indicated as inventors for different designated States (see PCT Rule 4.6(c)), the Supplemental Box can also be used to indicate the designated State or group of States in respect of which each person is inventor.

2) No, where a particular State is designated for both a national patent and a regional patent, the same applicant(s) must be indicated for both designations. Thus, the person who is indicated as applicant for GB for a national patent must also be indicated as the applicant for GB for a European patent (see *Administrative Instructions under the PCT*, Section 203(b)).

(3) No, even if more than one type of protection for an invention is available in a designated State (in Germany, for example, it is possible to obtain a utility model instead of or in addition to a patent), different applicants may not be indicated for different types of protection in respect of the same Contracting State. Different types of protection in the same State are available only for the same applicant (see *PCT Applicant's Guide*, Vol. I/A, paragraph 59).

## MOST FREQUENT PCT USERS IN 1996

In 1996, 236 PCT applicants accounted for 33% (14,067) of the 42,186 international applications published, each with 20 or more such applications. This represents an increase over 1995 of 29% in the number of applicants in whose names 20 or more international applications were published. Of the 236 applicants, 54.2% were from the United States of America, 11% from Japan and 9.3% from Germany. ## PCT FEE TABLES

The following Tables show the amounts (including currencies—see the key to currency abbreviations following Table II) of the main PCT fees which are payable to the receiving Offices (ROs) and the International Preliminary Examining Authorities (IPEAs) during the international phase under Chapter I (Tables I(a) and I(b)) and under Chapter II (Table II). Fees which are payable only in particular circumstances are not shown; nor are details of certain reductions and refunds which may be available; such information can be found in the *PCT Applicant's Guide*, Vol. I/B, Annexes C, D and E. Note that all amounts are subject to change due to variations in the fees themselves or fluctuations in exchange rates. A 75% reduction in the basic fee, the supplement per sheet over 30, the designation and confirmation fees and the handling fee, as well as the transmittal fee payable to the International Bureau as receiving Office, is available to applicants from certain States; see footnote 2 for details. Footnotes to all Tables follow Table II.

1 Extension of European patent possible.

2 May only be designated for a regional patent (the national route has been closed).

3 Not bound by Chapter II (will become bound on 6 September 1997).

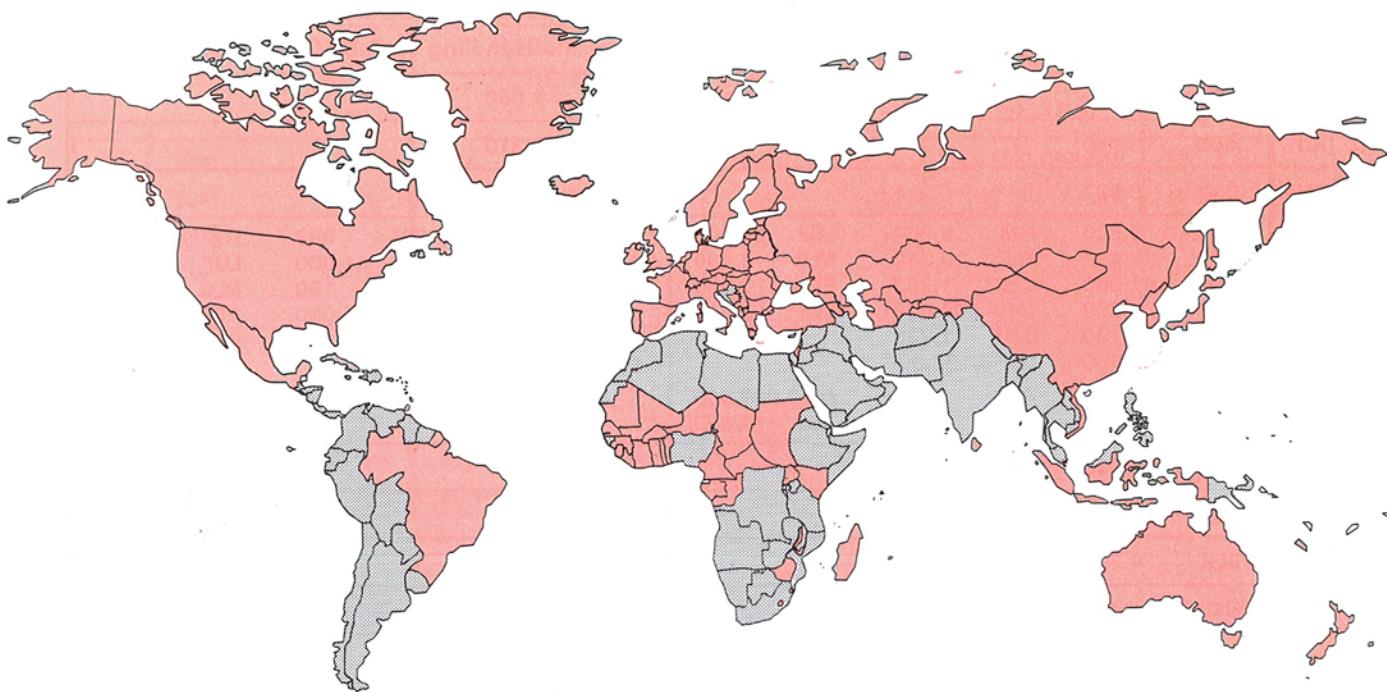

Where a State can be designated for a regional patent, the two-letter code for the regional patent concerned is indicated in parentheses (AP = ARIPO patent, EA = Eurasian patent, EP = European patent, OA = OAPI patent).

### Important:

This list includes all States that have adhered to the PCT by the date shown in the heading. Any States indicated in ***bold italics*** have adhered to the PCT but were not yet bound by the PCT on the date of issue of the latest version of the request form. If the applicant wishes to designate any States which are bound by the PCT on the date on which the international application is filed but which are not listed in the request form, he must add them in Box No. V of the request form and mark the corresponding check-box. Where a State has adhered to but is not yet bound by the PCT, the date on which it will become bound is shown in parentheses; it cannot be designated in international applications filed before that date.

Applicants should always use the latest versions of the request form (PCT/RO/101) and demand form (PCT/IPEA/401), new versions of which are normally issued twice yearly. The latest versions are dated July 1997. The forms are reproduced in Annexes X and Y, respectively, in Vol. I/B of the *PCT Applicant's Guide*, and can be printed from the WIPO Internet site, in PDF format, at: <http://www.wipo.int/eng/pct/index.htm>. The request form can also be obtained from receiving Offices or the International Bureau. The demand form can also be obtained from receiving Offices, International Preliminary Examining Authorities or the International Bureau.

1 Possibilité d'extension d'un brevet européen.

2 Ne peut être désigné qu'aux fins d'un brevet régional (suite à la fermeture de la voie nationale).

3 N'est pas liée par le chapitre II (deviendra liée le 6 septembre 1997).

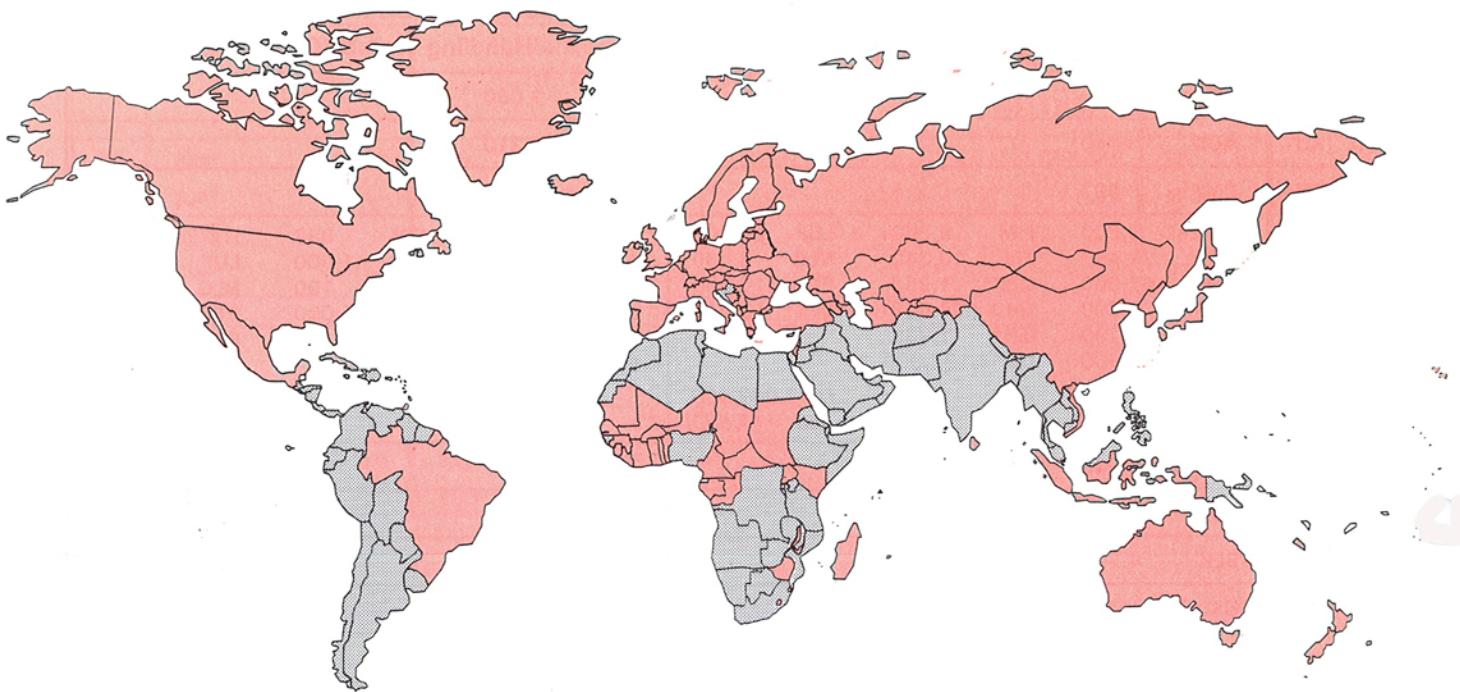

Lorsqu'un État peut être désigné aux fins d'un brevet régional, le code à deux lettres correspondant au brevet régional concerné est indiqué entre parenthèses (AP = brevet ARIPO, EA = brevet eurasien, EP = brevet européen, OA = brevet OAPI).

**Important:**

Cette liste comporte tous les États qui ont adhéré au PCT à la date qui figure ci-dessus. Les États dont le nom est indiqué en **italique gras** ont adhéré au PCT mais n'étaient pas encore liés par le PCT à la date de publication de la dernière version du formulaire de requête. Si le déposant souhaite désigner des États qui sont liés par le PCT à la date à laquelle il dépose la demande internationale mais qui ne figurent pas dans le formulaire de requête, il doit les ajouter dans le cadre n° V dudit formulaire en cochant les cases appropriées. Lorsqu'un État a adhéré au PCT mais n'est pas encore lié par le PCT, la date à laquelle il deviendra lié figure entre parenthèses; il ne peut être désigné dans des demandes internationales déposées avant cette date.

Il est recommandé aux déposants de toujours utiliser les dernières versions du formulaire de requête (PCT/RO/101) et du formulaire de demande d'examen préliminaire international (PCT/IPEA/401), dont il est publié de nouvelles versions, en règle générale, deux fois par an. Les dernières versions sont datées de juillet 1997. Ces formulaires sont reproduits aux annexes X et Y, respectivement, du volume I/B du *Guide du déposant du PCT*; ils peuvent être imprimés à partir du site Internet de l'OMPI (format PDF) à l'adresse suivante: <http://www.wipo.int/fre/pct/index.htm>. Le formulaire de requête peut également être obtenu auprès des offices récepteurs ou du Bureau international et le formulaire de demande d'examen préliminaire international auprès des offices récepteurs, des administrations chargées de l'examen préliminaire international ou du Bureau international.

1 Erstreckung eines europäischen Patents möglich.

2 Kann nur für ein regionales Patent bestimmt werden (die nationale Route ist geschlossen worden).

3 Nicht durch Kapitel II gebunden (Kapitel II wird am 6. September 1997 für Spanien verbindlich).

### Wichtig:

Diese Liste umfaßt alle Staaten, die dem PCT bis zu dem in der Überschrift genannten Datum beigetreten sind. Diejenigen Staaten, deren Namen **fett und kursiv** gedruckt sind, sind dem PCT beigetreten, waren jedoch am Tag der Herausgabe der letzten Fassung des Antragsformulars noch nicht durch den PCT gebunden. Will der Anmelder einen Staat bestimmen, der an dem Tag, an dem die internationale Anmeldung eingereicht wird, durch den PCT gebunden, aber nicht auf dem Antragsformular aufgeführt ist, so muß er diesen Staat in Feld Nr. V hinzufügen und das entsprechende Kästchen ankreuzen. Ist ein Staat dem PCT beigetreten, aber noch nicht durch den PCT gebunden, so ist das Datum, ab dem dieser Staat durch den PCT gebunden sein wird, in Klammern angegeben; dieser Staat kann in internationalen Anmeldungen, die vor diesem Datum eingereicht werden, nicht bestimmt werden.

Anmelder sollten stets die letzte Fassung des Antragsformulars (PCT/RO/101) sowie des Formulars für den Antrag auf internationale vorläufige Prüfung (PCT/IPEA/401) benutzen. Neufassungen beider Formulare erscheinen üblicherweise zweimal im Jahr; die letzten Neufassungen tragen das Datum von Juli 1997. Das Antragsformular kann von den Anmeldeämtern oder dem Internationalen Büro bezogen werden. Das Formular für den Antrag auf internationale vorläufige Prüfung ist bei den Anmeldeämtern, den mit der internationalen vorläufigen Prüfung beauftragten Behörden oder dem Internationalen Büro erhältlich. Die Formulare können darüber hinaus von der WIPO Internet site unter: <http://www.wipo.int/eng/pct/index.htm> (in PDF Format) ausgedruckt werden.

### **Importante**

Esta lista incluye todos los Estados adheridos al PCT en la fecha indicada en el título. Los Estados indicados en **italicas negritas** se han adherido al PCT pero aún no estaban obligados por el PCT en la fecha de publicación de la última versión del formulario del peticionario. Si el solicitante desea designar a cualquier Estado que esté obligado por el PCT en la fecha de presentación de la solicitud internacional, pero que aún no esté relacionado en el formulario del peticionario, deberá añadirlo en el recuadro N° V del formulario del peticionario y marcar las casillas correspondientes. Cuando un Estado se haya adherido al PCT pero aún no esté obligado por el mismo, se indica entre paréntesis la fecha en la que quedará obligado; no podrá ser designado en solicitudes internacionales presentadas antes de esa fecha.

Se recomienda a los solicitantes siempre utilizar las versiones más recientes del formulario del peticionario (PCT/RO/101) y del formulario de la solicitud de examen preliminar internacional (PCT/IPEA/401), nuevas versiones de las cuales son normalmente publicadas dos veces al año. Las versiones más recientes son de julio de 1997. Se reproducen los formularios en los Anexos X y Y, respectivamente, del Volumen I/B de la *Guía del solicitante PCT*; pueden imprimirse los formularios desde la página de acceso de la OMPI a Internet donde están disponibles en formato PDF en: <http://www.wipo.int/spa/pct/index.htm>. El formulario del peticionario puede obtenerse en las Oficinas receptoras o en la Oficina Internacional. El formulario de la solicitud de examen preliminar internacional también puede obtenerse en las Oficinas receptoras, las Administraciones encargadas del examen preliminar internacional o la Oficina Internacional.
