

The Proposal for Setting up Cl.16-07

The Proposal :

Set up a new subclass Cl.16-07 Spectacles. All goods of Cl.16-07 are transferred from Cl.16-06.

The reasons lie in :

Goods of Cl.16-06 can be divided into two categories: (a) All kinds of spectacles and their parts or accessories; (b) Other optical goods. With significant design features as well as relatively large number of applications, it is more reasonable for the former category to secede from Cl.16-06 and set up a separate subclass.

The Proposal for Setting up CI.28-06

The Proposal :

Set up a new subclass CI.28-06 Hair dressing supplies and equipments. All goods of CI.28-06 are transferred from CI.28-03.

The reasons lie in :

Goods in CI.28-03 are numerous and miscellaneous. Hair dressing supplies and equipments which are in this subclass are well-defined and their functions are exclusive, so it is more reasonable to extract them from CI.28-03.
