What is the difference with articles classified in 30? See also DE Proposal No.11 for "Snak bags for animal walking". FR : we suggest a shorter product indication : "Safety gates for pets"/"Barrières de sécurité pour animaux de compagnie". We think it's not necessary to indicate that's for an interior use. DE: We are unsure of the class for this term when the term contains the restriction for pets. All products with the purpose of use for, on or with animals were previously classified in class 30, see also ID 104406 "Animal clothing", ID 104609 "furniture for animals", ID 104468 "Beds for animals". It might be sufficient to amend the existing term ID 100668 "Safety gates for babies" and broaden its scope. The term should not be limited to babies or pets but could be called "Safety gates for interior use" and be classified in 06-06.	IB: We chose 06-06 for these goods as they are very similar in appearance to safety gates for babies and we chose to add "for interior use" as there are pet gates for outdoor use which may be classified in 25-02. However, we can discuss the possibility of classifying these goods in 30-02 at the CE. Nous avons choisi 06-06 pour ces produits car ils sont très similaires en apparence aux barrières de sécurité pour bébés et nous avons choisi d'ajouter "à usage intérieur" car il existe des barrières pour animaux de compagnie pour usage extérieur qui peuvent être classées en 25-02. Cependant, nous pouvons discuter de la possibilité de classer ces produits en 30-02 lors du CE.

DE: This term might be already covered by the existing LOC term ID 103131 Ice scrapers. What is the different between those two terms?	IB: A window scraper is a tool which holds a blade used for scraping stains and debris from the surface of the glass. <a href="#">A</a>	WO-15-25	8	06	101344	Handles for carrycots	Delete		Poignées de nacelles pour bébés	Supprimer				At CE14 the IB proposed that this entry be transferred to 06-02 by analogy with 100554 Carrycots for babies / Nacelles pour bébés but this proposal did not reach consensus.  The IB therefore proposes that this term be deleted as it does not seem appropriate to classify it in Class 8 Tools and hardware / Outils et quincaillerie. They are also different in nature to the other handles in 08-06.  At CE14, 101003 Capsules containing washing products // Capsules avec produits de lavage was deleted from 07-05 as it was considered too vague. FR : nous préfererions une désignation plus courte, peut-être "Capsules solubles [emballages]" / "Dissolvable capsules [packaging]" si cela n'est pas trop vague?	IB: Thank you for your comments. We will modify this proposal to: Dissolvable capsules [packaging] / Capsules solubles [emballages] (Initial wording: Dissolvable capsules containing laundry detergents / Capsules solubles contenant des détergents pour le linge)  Regarding the classification, 104369 "Blocks of washing products" are classified in 28-99 because a solid product is able to form a design, whereas in the case of liquids there cannot be a design – the design is in the packaging, which is the reason why we would classify this good in Cl. 9.
														DE: We would prefer a broader term of this kind of packaging which also includes products for cleaning and care like soap or shampoo.

JP: We think walking sticks could be transferred from 03-03 to 24-05. Because shape of walking sticks is similar to the crutches for walking aids. And it will also need to change the name of 03-03 to "03-03 UMBRELLAS, PARASOLS, SUNSHADES."	IB: We did consider including walking sticks in this new subclass but in the end concluded that walking sticks have functions beyond being walking aids and they are similar in design to full-size (closed) umbrellas. All goods of Cl.28-06 are transferred from Cl.28-03. The reasons lie in: Goods in Cl.28-03 are numerous and miscellaneous. Hair dressing supplies and equipments which are in this subclass are well-defined and their functions are exclusive, so it is more reasonable to extract them from Cl.28-03. For point a, we suggest "Including razors, hair-removing appliances, apparatus and appliances for massaging." For point c, we suggest "Not including hair styling apparatus and instruments" (see our comments on Proposal No. 18)	IB: The text of this note changed for LOC13. A	NO-15-37	32	02			Add	<del>Get-up</del> (Arrangement of a park)		Ajouter	<del>Présentation [arrangement] d'un parc</del>				IB: Do you mean a park in the sense of a children's playground or in the sense of ornamental landscaping?    	NO: We think it could be both actually. Maybe it is too vague, but then we can discuss it on the CE.
A	WO-15-118	32	02			Add	Arrangement of automobile interiors		Ajouter	<del>Présentation [arrangement] d'intérieurs d'automobile</del>			Some users classify "interior arrangement of a vehicle" in 12-16 but we believe that it should be classified with the other "arrangement" entries in Cl. 32. If the wording "Arrangement of vehicle interiors / Arrangement d'intérieurs de véhicule" is preferred by the CE then 104613 and 104836 could be deleted.

Add ~~Get-up~~ Arrangement of office interiors

Ajouter Présentation [arrangement] d'intérieurs de bureau

IB: We would see "office" and "educational facility" as different so we suggest splitting this proposal into two proposals. Furthermore, if IB proposal Nos. 112-118 are approved, the following wording would be consistent:  
- Arrangement of office interiors  
- Arrangement of educational facility interiors

JP: We agree with the IB and FR comments. We split our proposal into two proposals and we also understand the IB suggestion of the wording.

FR : We think that "office" and "educational facility" refer to two different types of interiors. Maybe this proposal should be split into two proposals.  
FR : Nous pensons qu'un "bureau" et un "établissement scolaire" se réfèrent à deux types différents d'intérieurs. Cette propositions devrait peut-être être séparée en deux propositions.

Add ~~Get-up~~ Arrangement of educational facility interiors

Ajouter Présentation [arrangement] d'intérieurs d'établissement d'enseignement

JP: We agree with the IB and FR comments. We split our proposal into two proposals and we also understand the IB suggestion of the wording. We would like to revise the word "Get-up" if IB proposals Nos.112-118 are approved.
