Re: Locarno - Classification, C.LOC 02 from 21.11.2001

Dear Mr. Machado,

regarding your letter dated November 21, 2001, our office would like to submit herewith the following proposal of an addition to the present version (seventh edition) of the Locarno Classification.

For the eighth edition of the Locarno Classification we propose to introduce a new subclass:

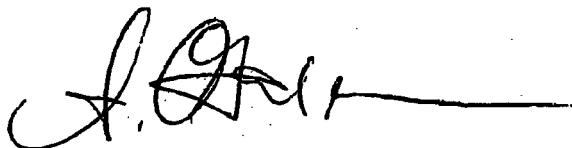

14-04 for the goods: user interfaces ( screen display )  
Icons

At the moment we classify such computer-display-applications under the subclasses 14-02 ("data Processing equipment as well as peripheral apparatus and devices) or 19-08 ("other printer matter"), but in our point of view we are not satisfied with this compromise.

We recommend therefor the introduction of the new subclass 14-04 with the wording "Screen displays and icons".

This is the only addition to the eighth edition of the Locarno Classification from GPTO.

Sincerely yours

by order  
Axel Okeimann

Bruno Machado  
 Director  
 International Relations  
 Department

Dear Bruno Machado,

In response to the invitation of the Committee of Experts of the Locarno Union (C/LOC 02/00 dated from 21.11.2001) to submit to the International Bureau proposals for amendments or additions to the current edition of the Classification, that will be considered by the Committee of Experts at the eighth session, for incorporation in the new (eighth) edition of the Locarno Classification. We propose to include into the list of the goods to the subclass 02-02 ("Clothes") the term "National Clothes":

In that subclass it is found some kinds of national clothes – kimono, poncho. Nevertheless, many of the kinds, for instance, the Kyrgyz clothes, hardly would be included into the very subclass. If taking into consideration, that the national clothes constitute the property of the each nation and nationality and present the subject for the art design, production and selling, so then it deserves the separate recording into the ICID.

With best regards,

Roman O. Omorov  
 Director

Re: International Classification for Industrial Design (Locarno Classification)

Dear Madam/Sir,

The Norwegian Patent Office would like to submit to the International Bureau proposals for amendments to the current edition of the Locarno Classification, in accordance with Article 3(3) of the Locarno Agreement.

Please find the proposals enclosed.

Sincerely yours,

Bernt Boldvik  
Head of Design and Trademark Department

Thale Andresen  
Senior Executive Officer  
Designs Section

Proposals for additions

- 14-01 DVD-player
- 14-02 Graphical user interface (computer screen layout)
- 14-02 Icons (computer screen)
- 14-03 Headset for telephone [earphone and microphone]
- 14-99 Electronic identity card
- 24-01 Light treatment apparatus (medical use)

Proposals for amendments, Class 14

Goods classified in subclass 14-03 are mainly used for communication, while the purpose of goods classified in subclass 14-01 are reproduction of sounds or pictures. We therefore propose to transfer (Serial No. E 0007) Earphones for monitoring broadcasts or recordings, to subclass 14-01.

Proposal for amendments, Class 31

Electric kitchen machines are classified in subclass 7-02 or class 31, and the limit between household goods in 7-02 and machines in 31 is not very clear. At the classification meeting in 1981, kitchen machines (electrical) for preparing cold food classified in class 7-04 were transferred to class 31. Likewise, we propose to transfer all electrical machinery, such as ovens (electric and gas), micro wave ovens, stoves, coffee machines, espresso machines, coffee roasters, grills, etc., to class 31, in order to eliminate this uncertainty. Thus class 7-02 would contain cooking appliances and utensils, hand-manipulated, for preparing food or drink, and containers.

### PROPOSALS for amendment to the Seventh edition of the Locarno Classification

Dear Sir,

With reference to your letter C.LOC 02/21.11.2001, we would like to submit to the International Bureau, the following proposal:

1. To transfer certain goods from class 99-00 to the other classes as follows:

B 0066 Ballot boxes .....	to the class	09-03
B 0123 Basins, portable, for plant germination and vegetation .....	to the class	09-03
B 0283 Blasting mats .....	to the class	29-02
C 0053 Camouflage nets .....	to the class	22-09
D 0163 Disposable boxes or pots for flowers or plants .....	to the class	09-03
F 0205 Floating barriers for preventing oil pollution .....	to the class	29-02
H 0223 Holographic signs, indicators and appliances .....	to the class	20-03
H 0256 Horticultural cloches .....	to the class	25-02
L 0103 Letter boxes .....	to the class	09-03
M 0245 Mooring buoys .....	to the class	12-06
N 0044 Newspaper boxes .....	to the class	09-03
P 0360 Poles [ for supporting plants ] .....	to the class	08-08
S 0681 Stands for letter boxes .....	to the class	08-08
S 0649 Stakes for plants or flowers .....	to the class	08-08
T 0328 Transport trays for flower pots or plants .....	to the class	09-03

2. To establish a working group to study the possibility to strike out (suppress) the class 99-00 "Miscellaneous" and to transfer all the goods to the other classes, for the following reasons:

- The class 99-00 is heterogeneous;
- For facilitating the search-documentation and the novelty search;
- The other International Classifications (Strasbourg, Vienna, Nisa) have not the class "Miscellaneous";
- Locarno classes 1-30 have one subclass "miscellaneous" each.

Sincerely yours

[Re: Locarno Classification]

Dear Sirs,

### **Proposals for amendments to the seventh edition of Locarno Classification**

1. With regard to steady increase in number of applications for registration of figurative and graphical design elements of **WEB PAGES** as well as variety of possible places for their classification used in different countries (the Subclasses 19-08 and 14-04 of ICID are most frequent) it seems reasonable to supplement a certain Class of the Classification with an indication of industrial designs related to **DISPLAY IMAGES** and **WEB PAGES**.

We consider Subclass 19-08 «Other printed matter» as the most preferable place to include such kind of products since the appearance of display images and web pages are made with use of elements proper to printed products. Further more, their printouts could serve as advertising or informational papers.

In order to facilitate the use of the Classification it seems to be advisable as well to add an indication of «printed products including web pages» to Class 19 of ICID with its heading worded as follows:

**«Class 19 Stationery and office equipment, artists' and teaching materials, printed matters including web pages».**

2. Since atlases (Subclass 19-04), road maps, geographical maps and so on (Subclass 19-07) as well as topographical plans (Subclass 19-08) are all based on topographical layouts we assume it reasonable to consider their joining under one Subclass common for the products in question, for example, 19-04 or 19-08.

Dear Director General,

I have pleasure in writing to you concerning the International Classification for Industrial Designs, established by the Locarno Agreement.

In the letter of November 21, 2001, a request was made by the Director of the International Registrations Department to national offices for the submission of proposals with a view to the eighth session of the Locarno Committee of Experts, which will take place in the second half of 2002.

The session in question will be a good opportunity to examine the proposed amendments or additions to the current edition of the Classification, in accordance with Article 3(3) of the Locarno Agreement.

I therefore have pleasure in submitting to you the proposals made by the Spanish Patents and Trademarks Office for your consideration within the Committee of Experts.

Yours sincerely,

José López Calvo

INTERNATIONAL CLASSIFICATION FOR  
INDUSTRIAL DESIGNS  
(LOCARNO CLASSIFICATION)

PROPOSALS (REF. NO. C. OC 2/00 OF NOVEMBER 21, 2001)

1. SANITARY TOWELS

There is currently no suitable place in the Classification for sanitary towels. They are classified by analogy with dressings for medical use in subclass 24-04 (MATERIALS FOR DRESSING WOUNDS, NURSING AND MEDICAL CARE).

Two solutions are proposed:

- (a) Adding this type of dressing to subclass 24-04, which would read as follows: "MATERIALS FOR DRESSING WOUNDS, NURSING AND MEDICAL CARE; SANITARY TOWELS."
- (b) Adding a note to subclass 24-04, using the same wording.

Note: includes sanitary towels.

Wording: "MATERIALS FOR DRESSING WOUNDS, NURSING AND MEDICAL CARE."

In both cases, it is proposed to include the entry "sanitary towels" in the list of products.

2. AIR FRESHENERS

There is currently no place in the Classification for air fresheners. They are classified in subclass 23-04 ("VENTILATION AND AIR-CONDITIONING EQUIPMENT").

It is proposed to add to the title of the subclass the term air fresheners, with the following wording:

"VENTILATION AND AIR-CONDITIONING EQUIPMENT, AIR FRESHENERS."

3. MODELS

There is currently no place in the Classification for models. They are classified in subclass

- (a) 11-02 (TRINKETS, TABLE, MANTEL AND WALL ORNAMENTS, FLOWER VASES AND POTS).
- (b) 21-01 (GAMES AND TOYS)

(c) 25-03 (HOUSES, GARAGES AND OTHER BUILDINGS)

Three possible solutions are proposed:

- (1) Where models are classified in subclass 11-02, the term “models” should be added to the existing note and the following wording used: “comprises sculptures, mobiles, statues and models.”
- (2) Where models are classified in subclass 21-01, the term “models” should be added to note (a) and the following wording used: “comprises miniatures and models.”
- (3) Where models are classified in subclass 25-03, the term “models” should be added to the title.
