

# WIPO Sequence Suite Development: Update

Emma Francis  
IP Data Expert

Standards Team

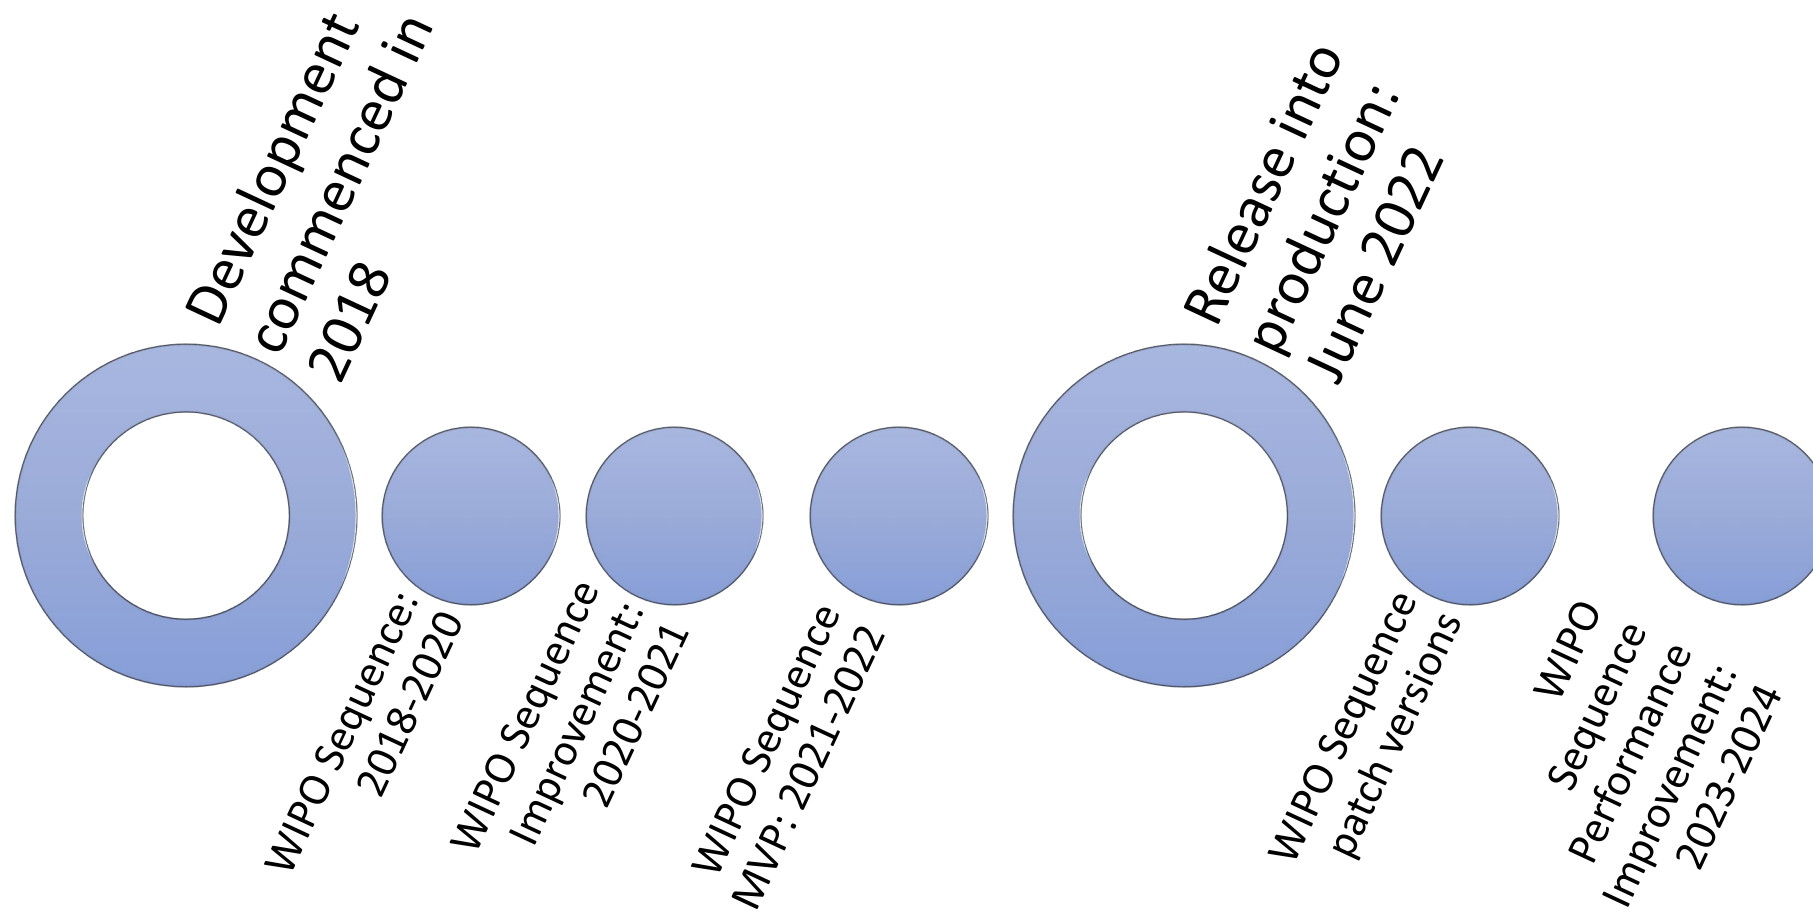

# WIPO Sequence Suite

...is comprised of the following two components:

- **WIPO Sequence** desktop tool – for applicants
  - **WIPO Sequence Validator** – for IP Offices
- Current production version is 2.3.0

# WIPO Sequence Suite development

# WIPO Sequence Performance Improvement

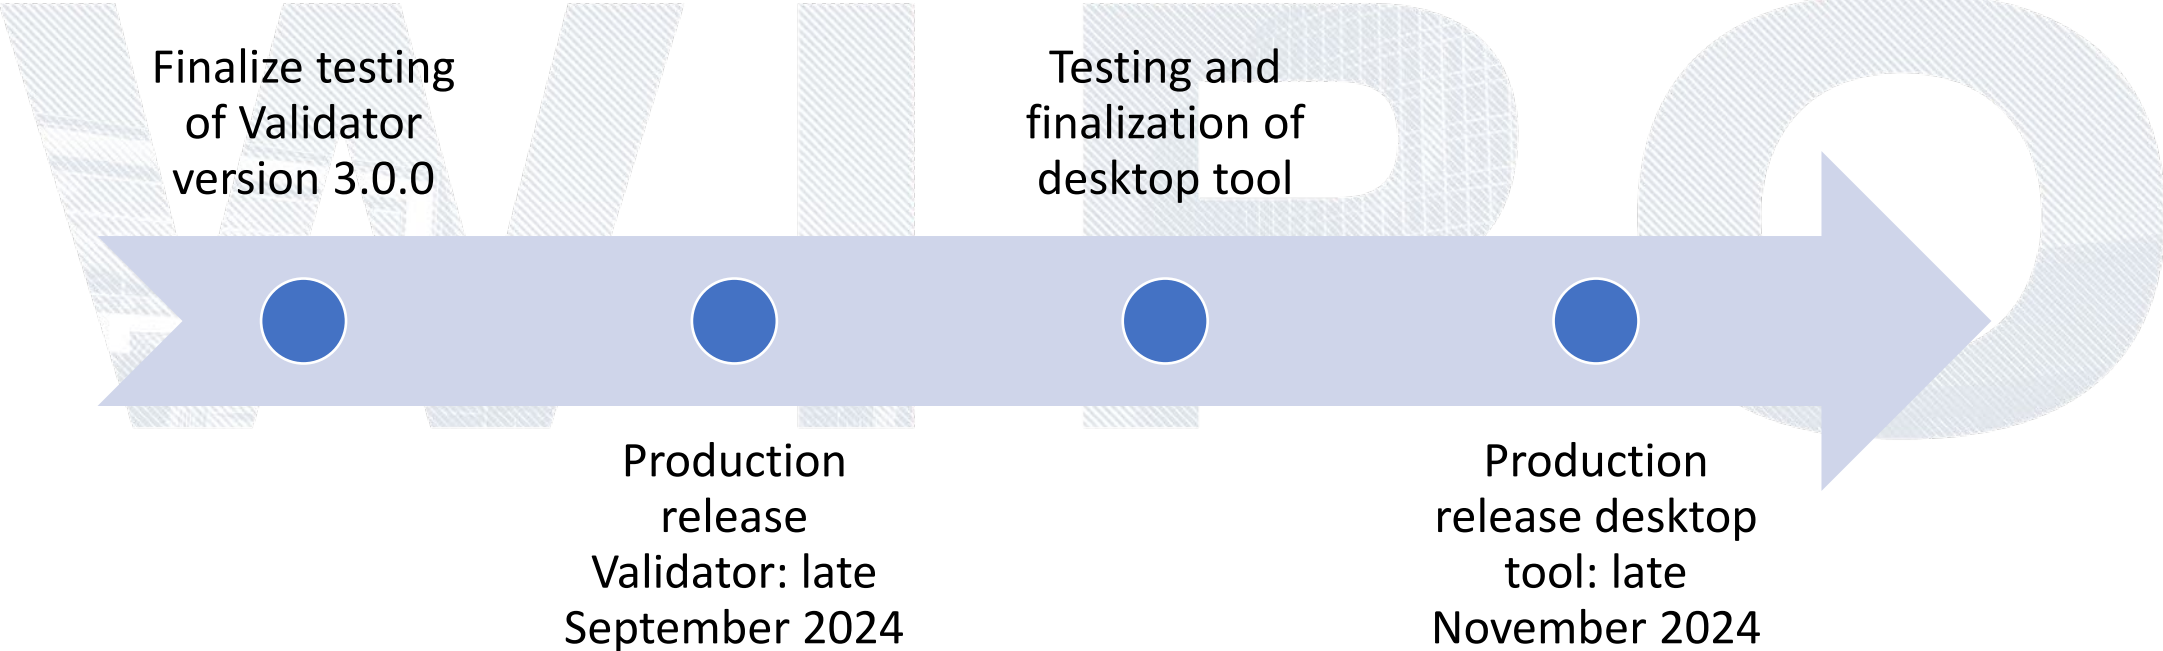

- Aim of the project to upgrade outdated architecture improvements
- Improve the performance of WIPO Sequence Validator: both larger and more complicated sequences
- Started June 2023 and concluded June 2024
- Result is version 3.0.0

# Progress achieved

- Performance benchmarking against version 2.3.0 reveals XML validation 3 times faster (simple sequences)
- Replaced outdated components including upgrade from Java 8 to Java 17
- New HTML version of the operations manual produced by the IB (in all 10 languages)

# Release schedule

# Future development 2025

- WIPO has committed to the ongoing maintenance and development of both components of the WIPO Sequence Suite
- WIPO is currently determining what future improvements should be implemented for the WIPO Sequence Suite
- WIPO Sequence User Group will play a part in selecting improvements but we welcome direct feedback from users at [wiposequence@wipo.int](mailto:wiposequence@wipo.int)
