**Eighth (8<sup>th</sup> Ordinary) Session**  
**Geneva, July 6 to 14, 2023**

REPORT OF THE ACCESSIBLE BOOKS CONSORTIUM

*Information document prepared by the Secretariat*

## INTRODUCTION

1. This is the ninth annual *Report on the Accessible Books Consortium* prepared in the framework of the Assemblies of the Member States of the World Intellectual Property Organization (WIPO).
2. The Accessible Books Consortium (ABC) is a public-private partnership established in 2014 that seeks to implement the objectives of the *Marrakesh Treaty to Facilitate Access to Published Works for Persons Who Are Blind, Visually Impaired, or Otherwise Print Disabled* (“the Marrakesh VIP Treaty”) at a practical level. ABC’s goal is to increase the number of books in accessible formats and to distribute these to people around the globe who are blind, visually impaired or otherwise print disabled.

## ACTIVITIES OF THE ACCESSIBLE BOOKS CONSORTIUM

### ABC Global Book Service

3. The ABC Global Book Service (“the Service”) offers an online catalogue of books in accessible formats available at no cost to authorized entities (AEs) serving people who are print disabled. The Service provides AEs with the ability to exchange accessible books across borders.
4. As of June 2023, the Service has over 840,000 titles in 80 languages available for cross-border exchange without the need for clearance formalities. Of the 127 AEs<sup>1</sup> that have agreed to join the ABC Global Book Service, 70 are located in developing countries or least developed countries (LDCs). Participating AEs delivered nearly 140,000 accessible format copies from the ABC catalogue to persons with print disabilities in 2022. See Annex I for the list of 127 AEs that have signed the AE agreement with WIPO.
5. In addition to the ABC library application used by AEs, ABC also provides participating AEs with a beneficiary application that can be offered to their patrons, so that people who are print disabled can search the ABC catalogue directly and download titles to read at their convenience. This beneficiary application is also provided free of charge. Currently, 37 AEs, of which 10 are located in developing countries or LDCs, have agreed to provide this beneficiary application (known as the ABC Supplementary Application) to persons who are print disabled. AEs certify that the persons downloading accessible format copies through this beneficiary application are print disabled as defined in Article 3 of the Marrakesh VIP Treaty. ABC continues to promote its new beneficiary application to participating AEs that are located in countries that have ratified or acceded to the Marrakesh VIP Treaty and have implemented its provisions. Currently, this beneficiary application has over 370,000 accessible format copies hosted on the cloud available for immediate download.
6. In mid-June 2023, ABC officially launched the ABC Application Programming Interfaces (APIs), which are free of charge. The ABC APIs provide AEs with the ability to make the ABC beneficiary catalogue of 370,000 accessible format copies available in their own user interfaces. In this manner, beneficiaries can gain direct access to these ABC accessible format copies using the website or application that is most familiar to them.
7. The National Library Service for the Blind and Print Disabled (NLS) of the United States of America produces high quality audio books that are of great interest to beneficiaries worldwide. However, the audio format used by NLS is not necessarily compatible with reading devices used outside of the United States of America. The Canadian Centre for Equitable Library Access (CELA) and the Canadian National Institute for the Blind (CNIB) are converting the entire NLS collection of audio books into a more widely compatible DAISY 2.02 format so as to

make the NLS titles available to beneficiaries in Canada. With NLS' approval, CELA and CNIB have shared over 82,000 of the converted titles with ABC in 2022-2023, thereby making these highly requested titles available to a much wider readership since the converted NLS titles will now be compatible with the majority of audio players worldwide.

#### *Future ABC Global Book Service Activities*

8. ABC is in discussions with an accessibility software developer to provide a multilingual reading application at no cost for use by people who are blind or otherwise print disabled. Using this free software, beneficiaries would be able to read accessible format copies downloaded from the ABC Global Book Service Supplementary Application.

9. ABC continues to discuss the establishment of a portal for a federated search with third parties, with the aim to provide a central location for the public search, discovery and exchange of the largest number of titles in accessible formats in the widest possible range of languages. Such a federated search capacity across a network of catalogues would further assist AEs and people who are print disabled by maximizing beneficiaries' access to the widest range of titles on various platforms.

#### Training and Technical Assistance

10. The ABC model for training and technical assistance aims to equip organizations in developing countries and LDCs with the ability to produce educational materials in national languages to be used by primary, secondary and university students who are print disabled. ABC provides training in the latest accessible book production techniques through an online platform that incorporates interactive sessions with expert trainers. Once participants complete the ABC Online Course in Accessible Book Production for non-governmental organizations (NGOs), ABC provides funding to the partner organization so that its personnel can utilize their recently acquired skills to produce educational titles in accessible formats for students who are print disabled.

11. ABC's online courses were developed by the DAISY Consortium and are inclusively designed, with navigable lesson content, accessible quizzes, described images and captioned videos. The courses teach participants how to make accessible books using production software that is also entirely accessible.

12. Three ABC Online Courses have been migrated from the DAISY Consortium learning platform to the WIPO Academy. The following three courses will each be available in Arabic, English, French and Spanish on the WIPO Academy's eLearning Center in the latter half of 2023:

a) *ABC Online Course on Accessible Publishing Concepts*: An introductory course intended for publishers and others interested in gaining a high-level understanding of critical concepts in accessible publishing. It covers topics including born accessible publishing, accessibility standards and best practices, and topics related to metadata. This is a self-study course taking about 2 to 3 hours and does not include the assistance of expert trainers.

b) *ABC Online Course in Accessible Book Production for NGOs*: A course designed for participants from ABC partner organizations in developing countries or LDCs that offers training in the latest techniques to produce books in accessible formats such as braille, audio, e-text and large print. The course is delivered through interactive sessions with expert trainers.

c) *ABC Online Course on Accessible STEM Content for NGOs*: An advanced course on the creation of accessible publications with scientific, technical, engineering and

mathematics content, popularly called STEM. Given the complexity of the content, this course is intended for participants from partner organizations who have a certain level of expertise in accessible book production. The course is delivered through interactive sessions with expert trainers.

13. ABC implemented the following nine training and technical assistance projects in 2022-2023, with funding provided by the WIPO regular budget:

- (a) Armenia – National Library of Armenia
- (b) Cameroon – *Association FOCUS*
- (c) Gambia – Gambia Organisation of the Visually Impaired
- (d) Kenya – African Braille Centre
- (e) Mauritania – *Association Nationale des Aveugles de Mauritanie*
- (f) Niger – *Union Nationale des Aveugles du Niger*
- (g) Uganda – Lutino Adunu
- (h) Uganda – Uganda National Association of the Blind
- (i) Zimbabwe – Zimbabwe National League of the Blind

14. The following six ABC training and technical assistance projects, which are currently ongoing, are funded by Funds-in-Trust from the Republic of Korea (FIT ROK):

- (a) Kyrgyzstan – The Library and Information Consortium
- (b) Liberia – Liberia Intellectual Property Office (*Pro bono* project coordinator for seven NGOs serving people who are print disabled in Liberia)
- (c) Philippines – Resources for the Blind, Inc.
- (d) Senegal – *L'Institut National d'Éducation et de Formation des Jeunes Aveugles*
- (e) Trinidad and Tobago – National Library and Information System Authority
- (f) Uzbekistan – Society for the Blind of Uzbekistan

#### *Future Training and Technical Assistance Activities*

15. ABC plans to issue a “Call for Expressions of Interest” in the third quarter of 2023, inviting qualified organizations located in developing countries and LDCs to apply for the next round of ABC training and technical assistance projects. Ten to 12 organizations will be selected to receive training and technical assistance in accessible book production and up to 20,000 USD each to produce accessible educational texts in 2024 - 2025. The “Call for Expressions of Interest” will be posted on the [ABC website](#) and will be announced through the [ABC newsletter](#).

16. ABC is in the process of discussing with a company a donation of a library management solution that ABC could offer to partner organizations in developing countries or LDCs. This application would allow for (a) the management of the certification of beneficiaries; (b) cataloguing of the organization’s titles at a national level; and (c) efficient distribution of accessible format copies to beneficiaries.

#### Accessible Publishing

17. ABC promotes the production of “born accessible” works by publishers, i.e., books that are usable from the start by persons who are print disabled. In particular, all publishers are encouraged to:

- use the accessibility features of the EPUB3 open standard for the production of digital publications; and
- include descriptions of the accessibility features of their products in the information they provide to distributors, retailers and others in the book supply chain.

18. ABC organizes the *ABC International Excellence Award for Accessible Publishing* each year to recognize organizations providing outstanding leadership and achievements in the advancement of the accessibility of digital publications to persons with print disabilities. Last year's award was presented at the Guadalajara International Book Fair in Mexico in November 2022. The ceremony was held within the context of an accessibility seminar co-organized by ABC, the Guadalajara International Book Fair, the Mexican Publishers Association (CANIEM) and the International Publishers Association.

19. Publishing house Kogan Page of the United Kingdom and Mr. Ashoka Bandula Weerawardhana of Sri Lanka were the winners of the 2022 ABC International Excellence Award for Accessible Publishing. Kogan Page was recognized in the publisher category and Mr. Bandula Weerawardhana was recognized in the initiative category for their respective achievements in the field of accessibility. Special Commendations were also awarded by the jury to *Constantine Editores* of Mexico in the publisher category and the Dorina Nowill Foundation for the Blind of Brazil in the initiative category.

20. To further the objective of "born accessible" publishing practices, publishers and publisher associations around the world are invited to sign the *ABC Charter for Accessible Publishing*, which contains eight high-level aspirational principles relating to digital publications in accessible formats. Currently, 138 publishers have signed the Charter. A complete list of ABC Charter signatories is found in Annex II.

#### *Future Accessible Publishing Activities*

21. This year's ABC International Excellence Award ceremony will be held for the first time at the Sharjah Publishers Conference at the end of October 2023, which is a prequel to the Sharjah International Book Fair. ABC hopes this will promote accessible publishing in the Middle East and North Africa region.

22. Within the context of the European Union's Directive on Accessibility, ABC is collaborating with the International Publishers Association to maximize awareness amongst publishers and distributors of the need to comply by June 28, 2025 with the Directive's accessibility requirements for e-books.
