"Tamara Charkviani" <sakpatenti@wanex.net> From:

To: <scit.mail@wipo.int> Tue, Sep 27, 2005 3:26 PM Re: C.SCIT 2617/03 Date:

Subject:

Dear Mr. Wilson,

We are submitting the completed Questionnaire concerning Formats for Figurative Elements of Marks currently in use by Industrial Property Offices (SDWG Task No. 20).

Yours sincerely,

Tamara Charkviani

Head, Information and International Relations Dpt.

# Additional questionnaire concerning formats for figurative elements of marks currently in use by Industrial Property Offices

Task No. 20: Prepare, for adoption as a WIPO standard, a recommendation for the electronic management of the figurative elements of trademarks.

Please provide the following contact information in order for us to contact the person responsible for the Questionnaire in case of need:

| Contact details of the Reporting Office | ee:   |
|---|---|
| Name of the Reporting Office            | GE (ST.3 two-letter country/organization code)  NATIONAL INTELLECTUAL PROPERTY CENTER |
| Person to contact Name:                 | Tamara Charkviani   |
| Tel. number:                            | 99 532 988426   |
| E-mail:                                 | sakpatenti@wanex.net  |

# QUESTIONNAIRE

## **SECTION I**

| QUESTIC     | ON 1  |
|-------------|---|
| -           |   |
| Does your   | Office process electronically the figurative elements of marks?     |
|             |   |
| $\bowtie$   | <b>Fully YES</b> (in case that whole process employs digital image) |
| <del></del> |   |
|             |   |
|             | Partially YES (in case that some parts of the process employ paper) |
|             |   |
|             |   |
|             | NO  |
|             |   |

If your Office processes electronically the figurative elements of marks (i.e., if you answered "Fully Yes" or "Partially Yes"):

- (a) Which format is your Office currently using?
  - (i) For scanning:

|                                      | Black White | Grayscale        | Color     | Others |
|--------------------------------------|-------------|------------------|-----------|--------|
| Image format                         |             | JPG              | JPG       |        |
| Image resolution & Depth             |             | 100-200          | 200, 300  |        |
| Minimum and<br>Maximum size of image |             | 80X80(mm)        | 80X80(mm) |        |
| Image color management techniques    |             | Corel PhotoHouse |           |        |
| Compression technique & Rate         |             |                  |           |        |

**Note:** Please fill in the tables according to the comments as follow:

- **Image format:** (TIFF, JPG, GIF, PNG, CCITT...specify with the version, e.g., TIFF Group 4):
- Image resolution and Depth: (in dots per inch for resolution and dpi for depth)
- Minimum and Maximum size of image: (specify physical size of the input image with unit, not the storage size of the resulting image)
- Image color management techniques: (i.e., description of techniques applied to ensure reliable color reproduction)
- Compression technique and Rate: (specify general or IPO's specific compression technique and rate)

## (ii) For publishing:

|                                      | Black White | Grayscale         | Color     | Others |
|--------------------------------------|-------------|-------------------|-----------|--------|
| Image format                         |             | JPG               | JPG       |        |
| Image resolution & Depth             |             | 100-200           | 200-300   |        |
| Minimum and<br>Maximum size of image |             | 80X80(mm)         | 80X80(mm) |        |
| Image color management techniques    |             | Corel Photo House |           |        |
| Compression technique & Rate         |             |                   |           |        |

**Note:** Please refer to the above comments.

## (iii) For displaying:

| _                                    | Black White | Grayscale         | Color     | Others |
|--------------------------------------|-------------|-------------------|-----------|--------|
| Image format                         |             | JPG               | JPG       |        |
| Image resolution & Depth             |             | 100-200           | 200-300   |        |
| Minimum and<br>Maximum size of image |             | 80X80(mm)         | 80X80(mm) |        |
| Image color management techniques    |             | Corel Photo House |           |        |
| Compression technique & Rate         |             |                   |           |        |

**Note:** Please refer to the above comments.

#### (iii) For other purpose (please specify):

|                                      | Black White | Grayscale | Color   | Others |
|--------------------------------------|-------------|-----------|---------|--------|
| Image format                         |             | JPG       |         |        |
| Image resolution & Depth             |             | 100-200   | 200-300 |        |
| Minimum and<br>Maximum size of image |             | 80X80(mm) |         |        |
| Image color management techniques    |             | Corel     |         |        |
| Compression technique & Rate         |             |           |         |        |

Note: Please refer to the above comments.

(b) What does your Office regard as an original image and how does your Office store it (please describe in detail)?

Insert your reply below (free text, table, etc.):

An applicant files images that are than scanned and processed with the use of software Corel Photo-House-1 and stored in the images database as separate files. The images are than copied to the Trademakrs database to the respective field corresponding to the application concerned.

|   | ON 2   |  |                               |  |  |             |

#### **QUESTION 4**

| Indicate how the images of figurative elements of marks are disp | played (e.g., expandable |
|--|--------------------------|
| thumbnails, thumbnails only, full screen image):                 |                          |

| $\boxtimes$ | Normal:                 |
|-------------|-------------------------|
|             | Expandable thumbnails:  |
|             | Thumbnails only:        |
|             | Full screen image:      |
|             | Other (please specify): |
|             |                         |

Note: You may choose more than one if applicable.

#### **QUESTION 5**

(a) If your customer files a digital image that does not fully comply with the relevant regulation or guideline, how does your Office handle it (please describe in detail)?

Insert your reply below (free text, table, etc.):

The digital images are either processed so as to comply with internal reguirements, or sent back if we are unable to process them.

(b) Please identify if you "Touch Up" scanned images. What procedures and software tools do you have in place for "Touch Up"?

Insert your reply below (free text, table, etc.):

Corel Photo House, CorelDraw Picture manager, Photoshop

- (c) Please also specify which practice(s) is(are) used to ensure that the quality of mark images is identical to that of original images:
  - Skilled person:

```
Insert your reply below (free text, table, etc.): Skilled person
```

Procedures (i.e., notification to applications, etc.):

Insert your reply below (free text, table, etc.):

Regulations or guidelines:

Insert your reply below (free text, table, etc.):

• Imaging tool (i.e., scanner, software, etc.:

Insert your reply below (free text, table, etc.):

Imaging tool

Others (please specify):

Insert your reply below (free text, table, etc.):

| QUESTION 6  |
|---|
| How many mark images are stored with the above-indicated format(s) in your Office's computer system(s) (please list breakdown by format)? |
| Insert your reply below (free text, table, etc.):   |
| 14194 (JPG)   |
|   |
| QUESTION 7  |
| Which color space does your Office currently use (i.e., RGB, sRGB, YcrCb, etc.)?  |
| Insert your reply below (free text, table, etc.):  RGB  |
| RGB   |
|   |
| QUESTION 8  |
| Does your Office have a color management system for equipment such as scanner, monitor,   |
| printer, etc., to ensure the image quality?   |
| YES NO  |
| If "Yes," please specify your practice:   |
| (i) Calibration (please indicate specification of scanner, monitor, printer, etc.):  Insert your reply below (free text, table, etc.):    |
| (ii) Profiling (or characterization):   |
| If applying ICC profile: Insert your reply below (free text, table, etc.):  |
| Others: Insert your reply below (free text, table, etc.):   |
| (iii) Color transformation: Insert your reply below (free text, table, etc.):   |

#### **QUESTION 9**

Please indicate the list of software and hardware on which your Office depends to process electronically an image (in particular color image), which information could eventually be used to establish a new WIPO standard:

Insert your reply below (free text, table, etc.):

Hp ScanJet 5470; Hp Presesion scan 3,1; Corel photo House

#### **QUESTION 10**

Please identify any additional information that your Office has discovered related to the processing of images (i.e., best practices, problems, solutions, experiences, etc.):

Insert your reply below (free text, table, etc.):

It is preferable Grayscale for a black and white image rather than Black-White.

## **SECTION II**

#### **QUESTION 1**

Please indicate your Office's current and future direction for other types of marks (i.e., sound mark, smell mark, motion mark, etc.):

Insert your reply below (free text, table, etc.): sound

#### **QUESTION 2**

Please indicate the number of applications/registrations your Office currently has, grouped by the type of mark:

Insert your reply below (free text, table, etc.):

Applications figurative: 14194

*Totally:* 35500

regiatrations figurative: 5459

*Totally:* 17462

#### **QUESTION 3**

Please indicate if your Office processes in electronic form any other types of marks besides those mentioned in Question 1 of Section II:

Insert your reply below (free text, table, etc.):

## **GLOSSARY**

## **Color space:**

A color model is an abstract mathematical model describing the way colors can be represented as tuples of numbers, typically as three or four values or *color components* (e.g., RGB and CMYK are color models). However, a color model with no associated mapping function to a reference color space is a more or less arbitrary color system with little connection to the requirements of any given application. For example, Adobe RGB and sRGB are two different color spaces, both based on the RGB model. (Wikipedia, the free encyclopedia)

## **Calibration:**

The process of returning a device to known color conditions. Commonly done with devices that change color frequently, such as monitors (phosphors lose brightness over time) and printers (proofers and other digital printing devices can change output when colorant or paper stock is changed). (*Adobe.com*)

## **Profiling (Characterization):**

Characterization is the process of identifying the relationship between a device-dependent color gamut and device-independent color. After a device has been calibrated, characterizing is the next process (sometimes referred to as profiling a device). Any production device that scans, displays, or prints a standard target comprised of many different solids and tints can be characterized. (*Adobe.com*)

# **ICC** profile:

Set of transforms from one colour encoding to another, e.g. from device colour coordinates to profile connection space, prepared in accordance with ICC.1. (ISO 12231 and ISO 12647-1)

#### **Color transformation:**

A transformation process that begins with color information that is encoded in one color space, or appropriate for one device, and produces corresponding information in a different color space, or for a different device. Color transformations are of particular interest in digital imaging where they are used to transform images from one device space to another, e.g., monitor RGB to printer CMYK). (*Chem industry.com*)
