

The following information in section “(i) certain aspects of the applicable national or regional patent law”-“(4) Grace Period/ (6) Exclusions from patentable Subject Matter”- “ China ” is updated based on the amended Patent Law of the People's Republic of China **as in force from June 1, 2021.**

(4) Grace Period (China)

An invention-creation for which a patent is applied for does not lose its novelty where, within six months before the date of filing, one of the following events occurred:

1. where it was made public for the first time for the purpose of public interest when a state of emergency or an extraordinary situation occurred in the country.
2. where it was first exhibited at an international exhibition sponsored or recognized by the Chinese Government;
3. where it was first made public at a prescribed academic or technological meeting;
4. where it was disclosed by any person without the consent of the applicant.

(6) Exclusions from patentable Subject Matter (China)

5. Nuclear transformation methods and substances obtained by means of nuclear transformation.
