Q 3.1. Please describe existing practices or future plans for using 3D models, 3D images or 3D chemical structures within your Office

Q 3.2. Please describe existing practices or future plans relating to the implementation of WIPO Standard ST.91 within your Office

In the meetings of the National Committee on the National Intellectual Property Strategy I suggested including 3D models and 3D images of intellectual property laws in Syria, to help creators identify the most appropriate forms of protection for their 3D models and images. Therefore in the future WIPO Standard ST.91 will be used in our office

Q 4. Any other comments

1- I suggest creating a pilot testing program for WIPO Standard ST.91 and other WIPO standards with Member States to urge Member States to deal with these standards, spread a culture of their use, and ensure practical application and effectiveness in Member States.

Updated WIPO Standard ST.91 and other WIPO standards based on feedback from pilot testing program. including guidance on best practices and compliance requirements.

2- Due to the spread of hologram technology and its use in trademarks and advertising, this requires effective protection for it.

Therefore, I propose to find a special standard for hologram technology and not on the basis of video or 3D images.

4. Thank you
